FIRE DAMAGES RESORT PARK

Nine Concessions at Buckeye Lake Destroyed; 2 Firemen Injured.

By The Associated Press

NEWARK, O., Aug. 14 — Fire wrecked nine concessions in the heart of nearby Buckeye Lake amusement park shortly after midnight today while several thousand persons watched seven fire companies battle the flames.

Two volunteer firemen were overcome and taken to Newark hospital. They were Eugene Ramsey, 28, of Newark, and James Roache, 30, of Buckeye Lake.

Thirty-four park visitors received first aid treatment for burns, most of them caused by sparks, Resort Manager A. M. Brown reported.

He estimated damage at $65,000 but said cause of the fire was undetermined. It was brought under control in about an hour.

The lake volunteer fire department was aided by companies from Newark, Hebron, Granville, Pataskala, Millersport and Kirkersville.

"They saved the rest of the park from destruction," said Brown. He estimated about 2,000 persons were on the grounds when the blaze started and that several thousand were attracted to the scene.

The flames destroyed concessions from the all-in-one restaurant near the roller coaster east to the frozen custard stand.

Dance pavilions, the Lake Breeze hotel and cottages were not menaced Brown said.

Dr. G. A. Dressle, Newark physician vacationing at the lake, treated first aid cases. He was assisted by Mrs. John Slanker, Newark nurse also on vacation.

Spectators said the blaze appeared to start in a room occupied by a "Bingo" game and spread in both directions along the midway.

Building Destroyed

Destroyed by the fire was an old building housing the all-in-one restaurant, an art jewelry shop, a Bingo game, penny arcade, a doll baby rack, a penny pitch, a skeeball game and a shooting gallery.

Brown said it has not been decided whether to rebuild the structure since government restrictions prevent construction of such amusement buildings.

Truman Gives O.K. To Clark's Investigation of High Prices

By The Associated Press

WASHINGTON, Aug. 14 — President Truman expressed his wholehearted support today of the justice department's investigation of the high cost of food, clothing and housing.

He said he hopes it will produce results and he thinks it will.

But he told a news conference, in reply to a question, that he believes the principal effect will be to point to those responsible for high prices rather than to check the spiral.

Asked whether he believed anti-trust violations are responsible for the hike in prices, he replied the results of the inquiry must be awaited on that.

Consider Corn Ban

In answer to a question whether exports of corn must be curtailed due to the shortage, he said that it is under consideration by the cabinet world food committee.

The news conference covered a wide range of other questions:

V-J day—Mr. Truman said he anticipated when he signed the proclamation ending hostilities with Japan two years ago, that warring nations would have arrived at a peaceful settlement by this time, but he regrets that that has not been so.

He added he was still hopeful for world peace to benefit all peoples.

As for contentions that the dropping of the atomic bomb on Hiroshima was unnecessary, he recalled whimsically that when he went to school some bright young man discussed the maneuvers that Generals Lee and Meade should have made at Gettysburg.

The professor remarked, he said, that any schoolboy's afterthoughts of course were more valuable than any general's forethoughts.

In blunt language the President accused congress of tearing up the labor department.

That was one of the accom-

VICEROY TURNS OVER POWER

Moslem State Created Today, Hindu Unit To Join In Tomorrow.

By The Associated Press

KARACHI, Aug. 14 — Viceroy Lord Mountbatten relinquished the reins of British power today to the new Moslem dominion of Pakistan, the birth of which at midnight tonight he called "an event in history."

"Tomorrow," the viceroy declared in a farewell address before the Pakistan constituent assembly, "two new sovereign states will take their place in the commonwealth; not young nations but heirs of an old and proud civilization; full independent states whose leaders are statesmen already known and respected throughout the world; * * * not immature governments, or weak, but fit to carry on their great share of responsibility for peace and progress in the world."

The viceroy returns to New Delhi tomorrow to surrender British power to Hindu India and become governor general of that new dominion.

Strife Begins

Even as he spoke in Karachi, blood was being spilled in communal strife in the Punjab, where fighting between Moslems on the one hand and Sikhs and Hindus on the other reached new heights of destruction and violence.

Lahore, the capital of the vast northern province which is being split between Moslem Pakistan and Hindu India, counted its casualties in the hundreds after long hours of rioting and flames swept through much of the city. The fighting also fanned out into Amritsar and other outlying areas of the Punjab.

In this predominately Hindu city, thousands of cheering persons lined the route from government house to the constituent assembly hall, waving green and white Pakistan flags as Mountbatten passed. The gate through which the official cars entered the assembly hall compound was named for Mahomed Ali Jinnah, while the exit was named for Liaquat Ali Khan. Both are leaders of the Moslem league.

Will Be Ruler

Mahomed Ali Jinnah, president of the Moslem league and the leading advocate for Pakistan, already has been chosen governor-general of the new dominion and president of its constituent assembly.

The birth of freedom means that for the first time in nearly three centuries Indians will have complete control over the destinies and vast resources of their own people.

It means that the teeming subcontinent which has been a rich jewel in the British empire for so long a time now becomes two nations, a Hindu dominion of 227,000,000 stretching from the Himalayas to Calcutta; and a Moslem dominion of two parts populated by 69,000,000 Moslems, Sikhs, Parsis and the countless other communities of India—numbering 100,000,000 more—are divided between the two.

But whether the birth of freedom will bring peace to the tormented land is another question.

LIQUOR SALE BAN SET DURING FAIR

Mayor Dowler Issues Order Under Provisions of Law.

Police Chief William E. Marks has been instructed by Mayor H. L. Dowler to see that provisions of the Ohio general code prohibiting sale of intoxicating liquor within two miles of a fairgrounds during exhibition of a fair are enforced next week for the Marion county fair.

Mayor Dowler in a letter to Safety-Service Director E. O. Uncapher said he had been advised by the city solicitor that restrictions under the general code, although repealed during the 1947 session of the state legislature, will be effective until Sept. 8. In asking the safety-service director to see that the police department enforced the liquor regulation, Mayor Dowler pointed out that it was a city responsibility to enforce the law.

The two-mile limitation covers practically the entire city of Marion with the exception of a section in the Oakland Heights vicinity where several establishments are located.

Sale of 3.2 beer will be permitted, Police Chief Marks said, as under the state liquor board regulations 3.2 beer is not considered intoxicating.

Cooling Rain Brings Smiles To Localites

Marionites who only a short month ago were asking, "Isn't it ever going to stop raining?" today welcomed a mid-day shower like a forgotten income tax refund.

The rain fulfilled an early morning predicition of the weatherman's that thundershowers were moving south and east from northern Illinois and Indiana. Officially he predicted: Cloudy and not so warm with scattered thundershowers tonight. Friday generally fair and cooler.

At noon today, just before the shower, the thermometer stood at 86. Yesterday's high was 92 with a low of 72 registered. A year ago today the reading was 80 with a low of 53.

Greatest War in History Came To End Two Years Ago Today

By The Associated Press

The greatest war in history came to an end two years ago today with the surrender of Japan.

The surrender announcement was made in a broadcast by Emperor Hirohito, the earnest little man whose powers have been wiped away in these last two years, but whose people still treat him with reverence.

General Douglas MacArthur is in charge now and from him today came a message to his occupation forces reminding them that "the victorious end of battle became the beginning of an equally vital campaign to secure the peace."

"We now enter the last phase in Japan of this test of our strength," he added. "It is you men and women, military and civilian, who have composed the Allied forces of occupation who are bringing this task to a successful conclusion."

The Socialist premier of Japan, Tetsu Katayama, noted the anniversary, too. He called upon his countrymen to stress science, labor and an international outlook if they would become a thoroughly peaceful nation.

"We are now living in a war-devastated land," Katayama said in a statement. "We must clean and level up this scorched earth and build upon it an ideal nation based on peace through the United Effort of all the people."

Conquered Japan will be opened, tomorrow to limited foreign trade, but the peace treaty for which the Japanese yearn is still in the future. Preliminary talks may start shortly, however, at the insistence of the United States.

A call for a prompt peace was made in a V-J day broadcast by President Manuel A. Roxas of the Philippine republic. He said the peoples of Asia "are clamoring for speedy conclusion" of a treaty and said it "is essential to restoration of mutually beneficial economic relations and will provide a stabilizing influence in this part of the world."

In Allied capitals of the world, V-J day passed quietly. The peace was still to be secured.

Ex-Officer Marries Daughter of Prewar Japanese Envoy

(Picture on page 14)

By The Associated Press

YOKOHAMA, Aug. 14—Former Army Lt. Frank White and Pia Kurusu, whose father was ambassador to Washington when Pearl Harbor was bombed were married at the American consulate here today.

The bridal couple posed for photographs but were reluctant to talk of their honeymoon plans. Nor would they say whether they planned a religious ceremony later. White had indicated previously that they did. The bridegroom, a civilian employed on General MacArthur's staff in Tokyo, said earlier that he planned to take his 21-year-old bride to America in a year. His home is in Somerset, Pa. The bride's mother is an American - born white woman.

They chose for their civil marriage a day on which the American consulate was crowded with other couples—Japanese girls and their nisei or white fiances—all hastening their marriages so the men can declare their wives before Aug. 22 and thus make them eligible to enter the United States despite the Japanese exclusion act.

300-Barrel Oil Well Brought in at Ironton

By The Associated Press

IRONTON, O., Aug. 14—A 300-barrel oil well was reported in production today on a farm 14 miles northwest of here after it was brought in as a gusher Saturday.

Andy Akers said a 2,110-foot deep well on his farm was estimated to be producing 300 barrels of oil daily and the Buckeye Refinery company, which did the drilling, plans to sink six additional wells on his property.

HYDRAULIC PRESS CO. GROUP MEETS HERE

New Products Announced at 2-Day Sales Conference.

More than 70 branch office representatives and dealers for the Hydraulic Press Manufacturing company of Mt. Gilead are attending a two-day sales meeting at Hotel Harding.

The purpose of the conference is to introduce three new company products, according to J. P. Crews, sales manager. He said one of these is the first inclinenble hydraulic press ever to be placed on the market. It has a capacity of 50 tons. Hydraulic presses are being produced that operate vertically as are mechanical presses that are inclineable, but the new press is the first inclineable hydraulic press to be built, Mr. Crews explained. The other new products are an aluminum die casting machine and a zinc die casting machine.

P. C. Pocock of Marion, vice president in charge of sales, conducted yesterday's meeting while today's session will feature a roundtable discussion led by Col. H. A. Toulin of Dayton, company president.

MARSHALL ARRIVES AT RIO DE JANEIRO

By The Associated Press

RIO DE JANEIRO, Aug. 14— U. S. Secretary of State George C. Marshall landed today at the Ponta do Galeao military airbase for tomorrow's opening of the inter-American conference on hemisphere defense.

Delegates eagerly waited his reaction to an Argentine proposal to include economic matters in the talks.

Diplomats have anticipated that the Argentine proposal, made in brief yesterday, may develop into a demand for a "Marshall plan" for the Western Hemisphere like that in the making for Europe.

Informed American sources, who said Marshall probably would state his views at the opening session, expressed belief that the United States would stand pat on its original intention to confine the parley to defense matters.

First Water Goes Through Delaware Conservancy Dam

Special to The Star

DELAWARE, Aug. 14— Water flowed through the Delaware conservancy dam for the first time yesterday after engineers diverted the river to dry up the stream on the west side, according to A. A. Johnson, Army engineer in charge of the project.

Construction work will probably not be completed until the end of November or in December, Johnson said. Work to be completed at the dam includes filling the west bank of the river with 200,000 yards of earth and pouring of concrete to raise the level of the west to that of the east side.

There were 35 to 40 cubic feet of water per second flowing through the dam as the result of the diversion, the engineer said. Trial of Reich 'Trust' Begins

I. G. Farben's Chemical Combine Directors Plead Innocent of War Guilt.

By The Associated Press

NUERNBERG, Germany, Aug. 14 — Twenty-one directors of the billion-dollar I. G. Farben chemical trust pleaded innocent before an American war crimes court today to charges that they had conspired to plunge the world into war for profits.

Without Farben, Brig. Gen. Telford Taylor, the chief prosecutor, charged in a scorching 20,000-word indictment, Adolf Hitler would have been powerless to start the war in 1939 and powerless to wage it so successfully so long.

Three other defendants were absent and it was announced they would be tried later. Max Brueggemann and Karl Wurster were in hospitals and Carl Lautenschlaeger was excused at the last moment because his son died last night.

The defendants entered their pleas after the tribunal overruled arguments by defense attorneys that they would need from three to six months to prepare their cases. The judges ordered the actual trial to start on Aug. 27.

The Farben directorate, which includes some of the biggest and yet least-known men of central Europe, is charged with waging aggressive war, with plundering subjugated countries, with experimenting on concentration camp victims and with exploiting slave labor.

The 21 defendants barked out their "not guilty" pleas in the same courtroom where Hermann Goering and other Hitler henchmen were tried.

The defense attorneys protested that a trial of such international scope was "impossible" to defend under the circumstances and they cited what they called inadequate facilities, inability to contact necessary witnesses in other countries, and inability to [illegible] of Farben files captured by American troops.

Gen. Taylor said the defense had been given adequate time to prepare its case and that the [illegible] available for the defense [illegible]

28 NAZIS GET DEATH PENALTY

Buchenwald Prison Camp Attendants Sentenced To Hang for Crimes.

(More about Buchenwald in Hal Boyle column on Page 17)

DACHAU, Germany, Aug. 14— An American war crimes court today sentenced 28 Buchenwald concentration camp attendants to hang for atrocities committed against inmates during the Nazi regime.

Five others were sentenced to life imprisonment, among them Frau Ilse Koch, widow of the former Buchenwald commandant, who is expected to give birth next month to a baby conceived while a prisoner.

One defendant was sentenced to 20 years imprisonment, two to 15 years and one to 10 years.

The 31 defendants were convicted Tuesday after a four-months trial.

More than 50,000 prisoners died in the notorious camp, which was situated on the outskirts of Weimar, a quiet town in Thurnigia province famed as the residence of the German poet Goethe.

Among those condemned to die with Hermann Pister, a former camp commandant, and Max Schobert, former camp leader.

Those sentenced to life imprisonment included Edwin Katzenellenbogen, a former American citizen selected from among the inmates to become a trusty, and former Prince Josias Waldeck, a high-ranking S. S. (Elite Guard) officer and the first German of

Many Oddities Among City's Old Ordinances Uncovered During Process of Recodification

By MARY HERRING

Skeletons of some 100-year-old ordinances have been rattling around in the municipal closet—now some are being exposed. Eight volumes of large legal books containing 4,932 ordinances and resolutions, the first starting in 1847, are being recodified, indexed and compiled into a book for the first time.

Ralph Howard, junior law student at Ohio State university, Columbus, started the work June 23 and expects to have it completed by September. He is the son of Mr. and Mrs. D. A. Howard of 170 Summit street.

The first entry on May 14, 1847, was the approval of a city treasurer's bond for a period of one year. At the time of the approval William Brown was mayor and R. King, recorder. The name of the treasurer was not given.

Some Fancy Record Work

Until the year 1914 entries in the city's law volumes were written by hand. Many of the city clerks who entered the laws reverted to fancy penmanship complete with swirls and curliques. Others wrote a simple script, some using large letters, others small. Still others wrote in an extra-fancy script, decorating the writing further with heavier lines outlining some of the letters.

Mr. Howard said some of the writing is quite plain and easily read, while some is extremely difficult. In the earlier years, many followed the custom of spelling phonetically, or exactly as the word sounded. For instance, dream would have been spelled "dreme."

Many of the words would have an additional letter or two, and the "er" was generally used as "re" on such words as center and leather, etc. Tires were spelled "tyres" until 1918.

Later the Anglicized form of using letters in a syllable that aren't pronounced became more popular and is used more widely today.

Mr. Howard said the only word written in older laws that had him stumped for almost three weeks was the word "noseome." After encountering it a number of times in reference to pig-sty's and barns, he came to the conclusion that it meant "an offensive smell." A word having such a meaning is listed in the dictionary but the spelling there is given as "noisome" instead of the way it is spelled in early Marion laws.

The progress of the town's growth can be traced through the volumes and a number of the ordinances are informative of past conditions, while others are now amusing.

Until 1894 four of the downtown streets known now as Mill, Church, State and Prospect street's were then listed as North, South, East and West streets. In 1859 the police chief was paid $30 per month. In 1905 salaries for each of the two fire "chieftans" were set at $65 each.

Street Work Required

Another of the early laws, passed in 1879 was that "every able-bodied male had to spend at least three days out of the year in labor on streets." Thus Marion officials kept their streets in repair.

In 1860 is the first record of gas being installed and shortly after a law was passed stating that the gas street lights could only burn 158 nights during the year, from sundown till 2 a. m. and on special occasions.

If Marionites were forced to comply with an 1850 law, one which has never been repealed, on every house you would see a fire bucket hanging. According to the law, the bucket had to be made of leather and be bound with copper.

The first record of a fire engine purchase was during the year 1872. At that time the town was being served by a volunteer group of firemen.

Also listed in the older volumes was a law stating that all prisoners were to be kept at hard labor crushing stone while serving their sentences. Until 1914 serious offenders were sent to Dayton, where they were kept for a dollar a day as per a contract between the two parties. Bonds authorizing the building of a police station were voted in 1913.

Farmers would have a difficult time if they had no better lighting facilities now than were available in 1880. A law was passed at that time giving the requirements for covering a candle which was to be carried in a barn.

Regulations were also given for construction of plank sidewalks and included the kind of material, width and grade for each.

Don't Throw Snowballs

The law forbiding the throwing of missles or snowballs where they will be destructive dates back to 1862 and is still in force. Another still in force is the one saying that snow can not remain longer than 12 hours on the sidewalk without bringing a fine of $10 to the resident.

One law forbid trains to travel through Marion faster than five miles per hour. This was later repealed, as was the one forbiding the blowing of steam whistles within the corporation limits.

Some of the outdated laws which are now being dropped includes these: residents were ordered to keep their cows, cattles or horses from obstructing the sidewalks; a beast of burden had to be tied, and citizens were not permitted to drive or ride through the town at a pace faster than a trot.

Fines in the earlier years were high for minor offenses and were usually not less than $10 and ran as high as $30. Fines for such violations now are usually not more than $15.

In 1882 a law was passed requiring all residents who had open cellars in their homes as to have a "free and constant ventilation and passage of pure atmospheric air" through the opening.

A water crane to be erected for filling horse-drawn sprinkling tanks was voted in 1904. The previous year permission was given George Uhler to construct a covered area at "the new bank building." Two of the older residents of Marion believed this to be the time when the building just north of the courthouse on North Main street was being remodeled for use as the Marion Savings bank. It wasn't made clear in the granting of right if it was for the construction of a closed-in area to protect pedestrians or if it was for the erection of a marque-type extension over the walk.

Street Cars Authorized

In 1889 record is found of the granting of a 25-year franchise for the street cars. About that time people were forbidden to throw refuse in Goose Creek ditch. The ditch referred to is now Silver street.

Also to be found in the books is a proposal to "provide funds to send the fire chief to the national convention in New Orleans."

The following dates may not be when these utilities were first installed but it is the first record of each found in the books: 1882, levy for erection of waterworks; 1895, proposal to add water hydrants; 1896 establishment of gas for private and commercial use; 1896 installation of telephone and telegraph.

Street Naming Controversy

To enlighten up the records there is also an account of a feud which was staged in 1906. The argument was over the name of a street. Some Marionites wanted the street named Forest, so it was named Forest. Others decided it should be McKinley street and the name was changed. After several changes the persons in favor of having the street called Forest won out and there has been no talk of any further change.

The city offices were transferred to the Masonic building on South Main street in 1911 and it was in that year that the records were given the added protection of a fireproof vault.

Mr. Howard said that after 1912 the ordinances and resolution concerned mostly the paving of streets, installation of sewers and erection of additional light poles etc.

Considering the number recorded, comparatively few are being omitted in the recodifying process, Mr. Howard said the majority are still in force.

The reference book which will be compiled will include the general ordinances or permanent laws. The book will contain 24 headings and will range from criminal offenses to finances. A new traffic code is also being adopted. Mr. Howard will be assisted in the later typing by Miss June Wise, public stenographer whose office is on South Main street.

Fire Fighting Course Planned at Ohio State

By The Associated Press

COLUMBUS, O., Aug. 14—Major Ohio cities will send top fire fighters to Ohio State university Sept. 15-20 for the third annual "short course" on combating the menace to homes and factories.

The university announced today that some 200 firemen and insurance experts would attend the sessions on the campus.

Assistant Fire Chief Forrest B. Lucas of Dayton and Capt. Frank Vernotzy of Akron will address opening day sessions. Columbus Safety Director C. C. Cole will speak Sept. 16 and Battalion Chief Emmet H. Burne of Cleveland on Sept. 18.

University President Howard L. Bevis will present certificates Sept. 20 to those attending the course.

FIRE DESTROYS SHOP

By The Associated Press

YOUNGSTOWN, O., Aug. 14—Fire destroyed most of the stock of the Hollywood shop, women's apparel store, in downtown Youngstown yesterday, tying up traffic almost an hour. Assistant Fire Chief Frank Quinn said an explosion of gasoline in the basement started the blaze.

The pulse of newborn infants beats from 130 to 140 times a minute.

SCHENECTADY, N. Y.—A General Electric Co. research chemist has been awarded a patent for devising a method of preparing polyorganohalogeno-polysiloxanes. The 31-letter mouthful is the technical name for a mixture of compounds used as an invisible water-repellant on certain materials, according to its discoverer, Dr. Robert A. Sauer. He did not hazard a pronunciation.

Citizens' Group Here Backs Blue Cross Hospital Program

Plans for enrollment in the Blue Cross plan of prepaid hospital care are being sponsored by the Marion Citizens committee in cooperation with the Central Hospital Service of Columbus, it was announced today by Radph W. Jordan of Columbus, executive director of the plan.

The Citizens committee is composed of H A. Krigbaum, Duane L. Wiseman, John Dugan, Carroll B Davidson, R. C. Isaly, J. W Doxler, Carl Knark and J E. Oliphant. They are cooperating with representatives from Central Hospital Service to furtner the movement. Enrollments will be received by Blue Cross field representatives who will be in the H Scnaffner & Co. Furniture store to answer questions and take applications Aug. 18, 19, 20, 21, 22 and 23.

According to Mr Jordan, Blue Cross group hospital service is available to all employed persons There are two classifications of eligibility under the group plan (1)—any person employed in a group of five or more enrolls in an employer sponsored group; (2)—a self-employed person, or one employed where there are less than five employes enrolled in the community group. Blue Cross is nationwide, the sponsors explain. More than 27,000,000 persons in the United States, Canada and Puerto Rico now have their hospital bills in case of sickness or accidental injury paid by Blue Cross. Every sixth person in the United States and Puerto Rico is a Blue Cross member, the records show.

Blue Cross is a voluntary, non-profit plan designed to provide low cost, prepaid hospital care for all employed persons and their families. A fast growing plan, more than 27,000 enrollments daily are received by the 88 Blue Cross plans in this country, figures show.

Headquarters for the Central Ohio area, which is comprised of 27 counties are in Columbus. There are 33 Blue Cross hospitals in this area.

Solon Urges Output Spur

Says Congress Must Choose Between Production Stimulant or Hands-Off Policy.

By The Associated Press

WASHINGTON, Aug. 14—Senator O'Mahoney (D-Wyo.) said today Congress must choose between encouraging "an intelligent program of stimulating production and continuing to allow [illegible] rationing" of such products as automobiles, gasoline and steel.

The Wyoming senator said the investigation into prices of food, clothing and housing ordered by Attorney General Clark is a "fine thing" but that "the causes of inflation are much deeper than a search for extortionate profits."

O'Mahoney is a member of the joint congressional committee on the economic report which is scheduled to open its own coast-to-coast inquiry next month into rising living costs.

"Perhaps it ought to be pointed out," O'Mahoney said, "that evidence before the committee shows that the automobile industry, by private understanding, is rationing the output of automobiles. The steel industry is rationing the output of steel.

"In each instance, products are distributed according to the ratio of distribution before the war.

"Now the major oil companies are undertaking to ration petroleum products."

O'Mahoney said he believes there is no basis for any anti-trust action in connection with any distribution agreements prompted by scarcities.

Asked just what kind of a production stimulating program he has in mind, O'Mahoney said only that the problem could be solved if businessmen and politicians, separately, "would stop trying to take advantage of one another."

"The trouble is," he declared, "somebody always wants to put somebody else in the hole."

Chickens Stolen From Delaware County Farm

Special to The Star

DELAWARE, Aug. 14—Theft of 50 chickens from his farm Tuesday night was reported to the Delaware county sheriff by George Rebo of near Ashley.

The chickens were taken from a corn crib in which Mr. Rebo had placed 90 Barred Rocks a few days ago, he told the sheriff. Rebo said he had heard no noise during the night but chicken feathers in a corn field indicated the route the thief took.

Anniversary Song

TWO years ago today was V-J day. A war that had taken 225,000 American lives and cost 3,000 billion dollars had ended.

In two years the world prospect hasn't improved perceptibly. No plan has been approved for international control of atomic energy. The first important step is yet to be made toward European recovery. Britain is near bankruptcy. The United Nations hasn't been the force for peace the world had hoped it would be. Russia sees a war monger lurking in every shadow. Germany is still prostrate. Japan has made some tangible economic progress and has accepted at least the superficial appearance of democracy.

In the internal economy, 1945 retail prices were 31 per cent higher in 1945 than in 1939, now is 105 per cent higher. Wages, up 69 per cent in 1945 over 1939, now are 100 per cent higher.

Today's anniversary song is written in a minor key. Play it as a waltz, schottische or fox trot and it still doesn't come out "Happy Days Are Here Again."

It Wasn't Planned This Way

ATTORNEY GENERAL CLARK'S investigation of food, clothing and shelter prices is an obvious political stunt to take the heat off the Truman administration, but as a stunt it could be a dandy.

Clark has enough authority and snooping machinery at his fingertips to hand out black eyes at will, as long as he feels like it and the money holds out. All he needs to do is tell consumers what most of them want to believe—that they are the innocent victims of a plot to milk them.

An honest investigation of prices would show that they are high in 1947 because everything that has been done since 1933, when they hit bottom, has helped make them that way.

It would show that a prime reason for their condition is the cumulative effect of the policies of the federal government—such policies as deficit financing during the depression, price subsidies during the war and still in effect after two years of peace, artificial shortages and imposition of an unnaturally short work week during a period of short production.

In other words, an honest investigation might find Attorney General Clark emerging with the curious conclusion that prices are high because the Truman administration and its predecessor planned it this way. All bets that this is going to happen are hereby covered at odds of 1,000 to 1.

The Film Import Tax

THE consternation with which news of the British import film tax was received in Hollywood indicates the importance of foreign revenue in the film industry's economy. By the same token, in normal times the foreign market represented the difference between profit and loss for many industrial and agricultural products.

Motion pictures have represented only about 4 per cent of British dollar expenditures, but, as a Hollywood spokesman says, the British tax "may have set in motion a chain reaction which could blast all hope of trade revival around the world."

Of themselves, motion pictures are a comparatively small item in world trade, yet restrictions on their export can seriously affect an important American industry. In its small way, the film industry's crisis demonstrates that the British problem is an American problem, too.

Save It for the Real Thing

IT IS as fashionable in some circles today to smear an opponent by calling him a Communist as it was to call opponents tories and fascists in the high-riding days of the New Deal. It is also about as sensible.

Communist, used as a smear word, should be saved for the real thing. Otherwise, when the time comes to pin it where it belongs, the label will have ceased to mean anything.

The only Communists in the United States are persons owing their first allegiance to the foreign headquarters of their organized treason. Bona fide American liberals are not Communists. Bona fide American radicals are not necessarily Communists, although many of them are grinding the Communist ax. Bona fide American unionists are not Communists, though millions of them are being used by Communists with the knowledge, even the connivance of some of their leaders. Last but not least, Americans who deny that everything cherished by reactionaries is sacred are not Communists—any more than the reactionaries themselves are fascists.

Name-calling is a fine old American custom that needs to be carried on these days with a vast amount of patriotic restraint in view of the fact something vastly more important is at stake this time than a routine job of character assassination. The fate of the United States may depend in the last analysis on knowing who are the real Communists and tagging them.

California's Favorite Son

By RAYMOND MOLEY

Warren Is "More Interested" Than in 1944.

LOS ANGELES, Aug. 14 — At the moment, nothing is clear out here, politically or otherwise. Even the once justly celebrated air is full of a horrid thing called smog. This substance probably emanates from the thriving industry which Los Angeles has tried so hard to get. As if to disprove the charge, so current in the East, that California papers publish only the good about the local weather, the smog situation is openly discussed. So is the hot weather. Things smogwise have only reached the study period. Prevention and relief will come later.

The Republican political situation is not quite so troublesome as smoggy. But the scientific facts are even more mysterious. The mystery is locked in the person of Earl Warren, governor of the commonwealth. He can and will head and control the delegation to the convention next year. To make his control tidy and secure, he will be the favorite son of that delegation. Any out-of-state candidate who seeks direct support here or who enters the primary will be deemed a public enemy. Even as articulate a statesman as Harold Stassen came and went without making a speech. Senator Taft is coming and will speak, but it may be taken for granted that he will seek no delegates. And even the lure of a true vacation-land failed to bring that reticent aim-

Paul Mallon is on vacation. Publication of his column as a feature of The Star's editorial page will be resumed Aug. 25.

rod, Governor Dewey, west of the Sierras.

Whatever is known of Warren's ambitions and intentions is based on the inferences and hunches of his friends, for he has told nothing to anybody. It is believed, however, that he is more interested in the presidency than he was in 1944. It is also clear that he does not object to speculation about his chances. Everyone feels certain Warren will not accept a vice presidential nomination. He thinks he has a better job as governor, and he is probably right.

An idea, mentioned in this column some days ago, of uniting the 11 western states behind Warren has some favor among California politicians. They say that while the hundred-odd votes would not approach Dewey's or Taft's strength, they might well be decisive. They would also gain greater recognition for the West in a new administration. But such a pooling of votes would require some encouragement from Warren, and up to now he has manifested no interest in the idea.

California politicians are not united on a second choice if Warren is unavailable or if he cannot get the nomination. The more conservative favor Taft. The more internationally-minded like Stassen. There is no enthusiasm for Dewey, but he is regarded as the most likely nominee. There will probably be no pledges before the 1948 convention is well under way.

Just a Minute

By JACK TARVER

Did He Have His Transfer Ready?

A baby born on a Copenhagen streetcar has been issued a lifetime pass.

That's a fine present. But there'll doubtless be times when he'll wish he'd been born in a restaurant.

A streetcar baby. . . . so far as I can determine that's the first time in history anybody ever got up and gave his seat to the stork.

With such a background, he should be an exceptional child. I wouldn't be at all surprised if his first words are "Step to the rear of the car, please!"

Incidentally, children are being born in day coaches, airplanes, bus stations and elevators. Whatever happened to the old-fashioned expectant mother who never went out of the house?

Being born on a streetcar, of course, assures this lad a brilliant political career. Think how much greater appeal he'll have with the masses than an opponent who was born in a taxi-cab.

Pea Crop Boosted

By The Associated Press

GENEVA, N. Y.—Extra doses of nitrogen, above the usual fertilizer treatment for peas, increased the yield of shelled peas from 300 to 700 pounds to the acre in tests at the New York State Agricultural Experiment Station.

Palmeritis Again?

By JOSEPH and STEWART ALSOP

WASHINGTON, Aug. 14—It is time for Americans to brace themselves against another attack of the kind of hysteria which swept this country during the unlovely A. Mitchell Palmer era. That fact is underlined by reports reaching Washington of something that is going on in New York.

According to reliable reports an important grand investigation is in progress there. Prime mover behind the investigation is J. Edgar Hoover's FBI. The investigation is concerned with the relationship between certain American citizens, including public officials, and the Soviet Union. It is being conducted in conditions of the utmost secrecy. This much is known.

Because of the curtain of secrecy, the rest is speculation. But it is believed possible that the investigation may result in the American equivalent of the Canadian espionage case.

Indeed, according to one version, Igor Gouzenko, the Soviet code clerk who spilled the Soviet beans in Canada, at the same time started the FBI on the trail here. According to this version, when Gouzenko gave his startling testimony to the Canadian police, he also implicated certain Americans, including Treasury officials. The Canadian authorities did not publish these revelations, but quietly passed the word to Washington. One report has it that a least one of the American officials involved served in war time not far below the top level.

Some Unavoidable

No one doubts that such investigations must be made. Indeed, they are essential. If there are Americans, like the handful of pro-Communist scientists and politicians in Canada, were willing to work against their country for the Soviet Union, the facts must be known. And on the basis of the facts, calm and effective action must be taken, as it was taken in Canada.

It is quite possible that nothing on the scale of the Canadian revelations will result, and that the whole matter will peter out. The FBI has already overreached itself on one occasion, in the "Amerasia" case. Then it was clearly established that confidential documents had indeed been leaked. But Jack Service, the state department officer involved, was completely cleared. Yet if something really sensational does emerge from the current investigation, it is fervently hoped by observers of the political atmosphere here that the American people will recognize an isolated incident for what it is, and keep their sense of proportion.

For the grim contest with the Soviet Union in which this country is now engaged has faced the American government with an immensely difficult problem. That is the relationship between the personal rights of those Americans who work for the government and the maximum security for the government. This dangerous problem will not be successfully solved if the results of the current investigation lead to an atmosphere of national hysteria. The issue has, of course, already squarely confronted the government. The most "security-sensitive" spot in the government, has quietly dismissed a number of employes believed to have an ideological sympathy with the Soviet Union.

State Department Action

The state department, only less sensitive than the atomic energy commission, some weeks ago also less quietly dismissed 10 of its employes on the same grounds. A forthcoming report in this space on these dismissals will serve to illustrate the grave dangers inherent in the issue.

The best example of how not to deal with the problem was presented by the house-passed Rees loyalty bill. That bill provides for star-chamber proceedings against any government employe on the basis of "derogatory information," a phrase which its sponsors failed to define. Such level-headed conservatives as Sam Hobbs of Alabama instantly labelled the bill a monstrosity, and fought it.

The debate on the bill was a disturbing spectacle. The leader of the fight against it was the brilliant Estes Kefauver of Tennessee. Again and again Kefauver would rise to his feet, and calmly but cogently attack the more outrageous provisions of the bill. No serious attempt was made to answer Kefauver's charges. Again and again, laughing and gossiping, the members of the house would rise, in majorities of three or four to one, to vote down Kefauver's objections. The Rees bill never reached the senate. But an $11,000,000 appropriation for loyalty investigations was passed by both houses. Fears are widespread that the congress will demand a really impressive box-score, come what may, for its money.

Conflicting Feelings

This sort of thing, and such nauseating exhibitions as the attack in the senate on David E. Lilienthal as a "Communist," have led to the most serious misgivings. No sensible man, in view of the implications of the Canadian case, believes that the ideological sympathies of government workers in key spots can lightly be laughed off. But no sensible man believes that anything can be achieved by hounding American citizens, or by allowing American concepts of justice to degenerate to those of a Bulgarian People's court. That is why such profound concern is felt here, over what the national reaction may be if the more sensational reports of what is going on in New York prove true.

Penicillin Gum

Penicillin chewing gum will be on the market within six months as a result of experiments by a bubble gum manufacturer. While sulfa gum has been on the market for some time, it proved considerably more difficult to incorporate penicillin in gum in sufficient strength and durability to receive Food & Drug Administration approval.

The gum will be available only on prescription. Its principal advantage is that it makes it possible for individuals allergic to penicillin in capsule form or by injection to receive the benefits of the drug.

TRYING TO PATCH IT UP

From News of Other Years

TEN YEARS AGO

It was Saturday, Aug. 14, 1937.

At least three prominent Americans were killed and two other Americans were wounded in Chinese-Japanese aerial warfare that hurled death into crowded parts of the international city of Shanghai.

A 77-year-old bridegroom and a 62-year-old bride were united in marriage by Rev. Edward T. Waring, pastor of Epworth M. E. church. The couple, Isaac Ulman of Carrollton and Mrs. Grace L. McCort of Marion, left after the ceremony for a trip through the east.

Plans for remodeling and improving the armory on West church street were announced by Capt. H. L. Taylor of Co. D, 166th Infantry, following an inspection tour of the building by Adj. Gen. Emil F. Marx of Columbus.

James William Creasap, 63, member of a family associated with the Marion Steam Shovel Co. since shortly after its founding in 1884, died in the Frederick C. Smith clinic.

American Legion and 40 et 8 men left in the 40 et 8 boxcar for Columbus to attend the annual state conventions of the organizations.

Approximately 50 members of Buckeye Aerie No. 337, F. O. Eagles, including the lodge band, left in a special coach on the Erie railroad for Chicago to attend the Eagles annual national convention.

TWENTY YEARS AGO

It was Sunday, Aug. 14, 1927.

Rev. A. F. Uphoff, pastor of the Prospect Street M. E. church, was speaker for the weekly union services held at the Central Christian church here. His theme was "Let Us Fight the Good Fight of Faith."

Daughters were born to Mr. and Mrs. George T. Gallaway of Blaine avenue and Mr. and Mrs. Damon Spicer of North Prospect street.

Miss Grace Slusser and Roscoe V. Thatcher were united in marriage at the home of the bride's parents, Mr. and Mrs. Harry L. Slusser of South Main street, by Rev. William Frank of Chippewa Lake, an uncle of the bride.

Mr. and Mrs. Streeter G. Smith and daughter of Hill street returned home from a motor trip to Central Lake, Mich.

Mr. and Mrs. Ray R. King returned home from a vacation at their cottage at Cnaska Beach.

Charles P. Babcock, 43, died at his farm home on the Beaver-Foster road.

Use of Wrong Tactics

By GEORGE E. SOKOLSKY

MANY employers and many labor leaders are approaching the Taft-Tartley bill from the wrong side. Instead of trying to make the law of the land work, they are doing everything possible to circumvent it. Usually that makes a lot of good business of lawyers, but it is not good for the country. In effect, they are trying to make a Volstead act of the Taft-Hartley bill.

Some employers regarded the Taft-Hartley bill as a club with which to beat out the brains of labor leaders. I have been reading advertisements in newspapers which give the impression that the strike, as an instrument of collective bargaining, has been outlawed more or less. This is nonsense, as it is equal nonsense that the Taft-Hartley bill eliminates the union as an instrument of collective bargaining. The Taft-Hartley bill corrects and implements the Wagner act, which so encouraged strikes of major dimensions that since its passage the country has been cursed by arbitrary and unnecessary cessation of work. But the right to strike is inalienable among a free people and no legislation has yet been passed in this country abolishing that right.

I recently saw an advertisement which read:

"The new labor law specifically states that the employe is protected from coercion by labor unions and their agents or the employer . . That he is protected from losing his job even if there is a union shop contract. That now unions may be charged with an unfair labor practice if they use physical or economic forces, like mass picketing, to stop a man from going to work."

Questionable View

I suppose all this is a correct statement of the case as far as it goes, but it totally misrepresents the intent of the Taft-Hartley bill and it is very doubtful if the courts will uphold any such interpretation. For what this advertisement, in effect, tells the worker is that he may and ought to ignore his union altogether, to take his job as an individual, to deal with his boss as an individual, to ignore the disciplines of any union to which he may belong. It is a renunciation of collective bargaining through unions. But one of the criticisms of the Wagner act was that it limited collective bargaining by imposing the government as the final arbiter of industrial conduct.

Carried to its logical conclusion, the attitude of this advertisement would eliminate the trade union from American life altogether. The Taft-Hartley bill was never intended to do that. Its objective is to make the union an orderly institution, to refit it into the American scheme of balanced responsibilities and rights, obligations and liberties. In time, it will actually strengthen the American trade union by eliminating the crook, the racketeer, the arbitrary labor baron from it.

Employers who assume that they can use this measure to abolish the trade union do not understand the role that that institution plays in the development of mass production industries and in the maintenance of free institutions. They are rejecting the capitalistic concept of the partnership of labor and management and are accepting the Communist idea of the class struggle. The inevitable outcome of the latter is revolution.

Liability for Evasion

On the other hand, the labor lawyers, who seek to introduce clauses in contracts circumventing the act, lay themselves and the companies that do business open to litigation, possibly to the criminal charge of conspiracy. For obviously, men may not combine to evade the law and whereas one attorney-general may regard such conduct as practical and politically wise, another might, as Mr. Biddle did, file suit even in matters to which government officials had given consent. Any firm that plays with that firebrand is liable to burn its fingers badly.

The Taft-Hartley bill is the law of the land and it should be enforced. If it achieves its purposes, it is sound legislation. If, as proponents of the Wagner act say, it is impossible to administer, it will in time be amended to make it work. Bootlegging is not the solution: It is never the solution for anything. Obedience to law, passed by congress, alone can safeguard and maintain democratic government.

One Man's Opinion

General Eisenhower says no one has asked him to run for president . . . At this writing we can't tell whether that's regret or relief in his voice.

• • •

But Maine Republicans are warming up Sen. Brewster for vice president . . . that automatically puts Howard Hughes on the Democratic ticket.

• • •

It was unfortunate that the Hughes hearing ended so abruptly . . . Many had hoped it would stay on until McGee and Molly were back.

• • •

The concensus was there was no substitute for Fibber's closet quite as good as the cupboard Sen. Ferguson unwittingly unlatched.

• • •

But the committee was correct in calling off the hearing because of John Meyer's absence . . . Who was going to sign the check?

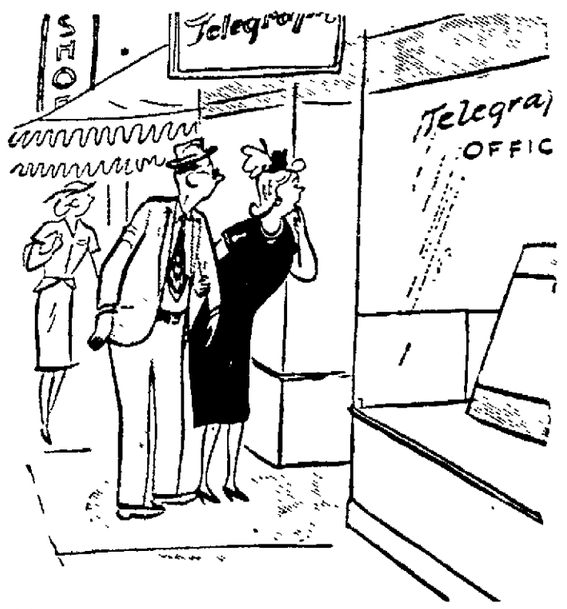
Anyhow it robbed us of the best front page story in months.

CROSSTOWN By Roland Coe



"Oh, this reminds me—what was that important issue I said we ought to wire our congressman about?"

Pitching Horseshoes

By BILLY ROSE

THERE'S a legend around Broadway that I know a lot about the stock market, that I get inside information. I don't know how that story started. What I know about Wall Street you can find in Gypsy Mary's Dream Book. But when I refuse to predict the future of DuPont or U. S. Rubber, my friends denounce me for holding out on them. "If that Rose would only open up," they whisper, "we could all get rich." Lucky for them I don't—they'd end up selling pencils.

But you can't kill a legend by denying it. Only this morning I got a telephone call from California. It was the head of one of the big Hollywood studios. Actors all over the world snap to at the sound of his name. I shall call him Max Maxwell B. Maxwell.

"Billy Boy," he said, "thank God I found you in. This break in the market has got us all walking into lampposts. There are 20 people in my office and they're all going crazy. I said, 'What's the use of guessing when I can get on the phone and talk to the man who knows. What do you think of the oils, pal?'"

"Why ask me, Max?" I protested. "I don't know anything about oil stocks."

"You can't refuse me," he pleaded. "There's important money involved." He sounded as if we were talking to a doctor about an operation on his child.

What could I do? "Maxwell," I said, "the country is basically sound."

His sigh of relief made 3,000 miles of wire tremble. Suddenly I realized that big stakes or blue chips would be bet on my silly say-so. "Hold it, Max," I said. "What's the use of guessing when I can get on the phone and talk to the man who knows?"

"Who do you mean?" he whispered.

"I can't mention his name on the phone," I said. "Never know who's listening. Call you back."

I HUNG up and phoned a friend of mine in Washington. I shall call him Horace B. Hogace. He is so influential in government he never goes to a movie without leaving his name at the box office, so the President can get him if he needs him.

"Horace," I said, "I'm glad I found you in. This break in the market has everybody worried. Just between us, what do you think of the oil stocks?"

"Billy," he said, "I honestly don't know."

"Please, Horace," I said, "don't be coy with me. Real money is at stake."

"Well, Billy," he said, "I thing conditions are fundamentally OK. But if it means that much to you, I can get on the phone and talk to the man who knows. I'll call you back."

Fifteen minutes later Horace was on the phone again. "You can sleep easy," he said, "I just talked to the one man in America who knows. He said the country is basically sound."

"Thanks a million," I said. "Horace, I know I'm out of line asking this, but I wonder you'd mind telling me whom you talked to."

"Ssh," said Horace, "these wires may be tapped."

But I was desperate. "Please tell me," I pleaded. "On my honor, I won't ever tell a soul."

There was a pause, and then Horace said, "Allright, if it's that important. It was Maxwell B. Maxwell of Hollywood."

A Guy Can Dream

By TRUMAN TWILL

There are days in every man's lifetime when he wonders why he is doing what he's doing and living where he's living instead of being a summertime guide and a wintertime trapper in Saskatchewan, striving to outwit the mink and muskies, paddling canoes over sparkling waters, sleeping under the stars and holding communion with the eternal verities of the great outdoors.

Or being a mogul with extensive interests in rubber, tea, whisky, oil, shipping and lumber, with a sea-going yacht, a private airplane (executive type), a stable of horses, a 20-room hideaway on Park Avenue, a camp for moose-hunting in Quebec, a winter palace in Florida and a chance to appear before an investigating committee in Washington;

Or a private eye, with the right connections in the best circles and one interested assignment after another, but all featuring beautiful heiresses who need wholesome influence to save them from the dirty work of unscrupulous characters who are after nothing but their money, the skunks;

Or a free-lance author with a ready sale for the products of his pen, said products emerging from said pen with no more effort than is required to squeeze ripe grapes from their skins, and with international fame and prestige opening all doors, perhaps even a chance to be entertained by a Roosevelt;

Or a ne'er-do-well without a care in the world, going from place to place, sitting in the sun, watching the world go by, without an enemy or any need to wonder where the next meal is coming from because it always has come from somewhere and once the pressure's off a fellow doesn't mind missing a meal once in a while anyway;

Or a genius paid for what he knows instead of what he does, with particular reference to the value of his ideas, any one of which may be worth a million dollars, so if there's only one idea a year it's still worth the expense of having the guy on the payroll and not bothering him with a lot of unimportant details;

Or an actor, with nothing to do but look interesting, a large and enthusiastic following at the boxoffice plus such desirable appurtenances as a long-term contract with the movie studio, a high market value as a guest star on radio shows and a quarter-million-dollar shack on Malibu Beach;

Or the heir to a large and secure fortune made in a way that bears scrutiny, with a couple of reasonably honest lawyers to cut the coupons off the bonds, collect the rents, tend to the dirty work with the tax collectors and stare at their polished fingernails whenever their clients turn in a request for another ten thousand to meet current bills.

Hutterites Look South

Alberta's Hutterites, denied permission to acquire more farmland in Canada, are considering moving to a large tract near Billings, Mont. The Hutterites, an Anabaptist sect founded by Jakob Huter in Moravia, have prospered greatly in Canada where 33 colonies with a population of 4,053 are communal owners of 180,433 acres.

In 1942 the provincial legislature prohibited further purchases of land by Hutterite colonies. Hutterites charge this prohibition is "religious persecution" and declare that "to deprive a minority of the right to purchase land is to mock justice and makes a farce of democracy."

Although Hutterites refused to bear arms in World War II, more than 300 of their young men went to conscientious objectors' work camps and the colonies loaned several hundred thousand dollars to the government without interest. The Hutterites are excellent farmers and live modestly.

Boston Homestead Near Ashley Dates Back to Pioneer Days

Special to The Star

ASHLEY, Aug. 14.—The story of what is authentically said to be the oldest homestead in this section comes to light on the occasion of the 62nd wedding anniversary of its present occupants, Mr. and Mrs. John Slaughter of Westfield pike about a mile northwest of Ashley.

Mr. and Mrs. Slaughter will observe their anniversary Friday in their home known as the Boston Homestead. Mrs. Slaughter is the granddaughter of its founders, William and Catherine Martz Boston.

The Bostons came to Ohio from Pennsylvania in May of 1829 via oxcart. Mr. Boston was born in England in 1793. He emigrated to America at the age of 19. With his wife, whom he met and married in Pennsylvania, he came to Ohio 148 years ago.

Has Original Deed

On the trip from Pennsylvania they passed through Columbus, then a mere hamlet, and bought 80 acres of school land from Governor Lucas. The original deed and survey are in possession of Mrs. Slaughter at the present time.

The nearest neighbor was three miles away east across Alum creek. Westfield and Ashley did not exist at that time. Mrs. Boston lived for a great part of the time alone in the little log cabin. Her husband worked on the Ohio canal, which was the waterway from Columbus to the Ohio river. Every weekend Mr. Boston walked the more than 30 miles from Columbus to be with her a day or so.

While her husband earned their living on the canal, Mrs. Boston tended a "sugar bush" on their homestead. Wolves and other wild animals abounded to the extent that she kept a huge hickory torch ablaze to ward them off while she tended the boiling sap kettles at night.

Primitive Window Coverings

No window glass had the cabin but Mrs. Boston hung quilts and skins across the openings to keep out intruders. In the course of time, the couple cleared their land and raised a family of four children.

The youngest of these, Henry H. Boston, became the present Mrs. John Slaughter's father. Her mother's name was Harriett Amelia Wheeler Boston. Their church membership was the old Bethel church on the Gavitt farm, the Rev. Gavitt being the domine.

The present Mrs. Slaughter was born in the house that was later built near the site of the cabin. There on Aug. 15, 1885 she was married to John Amos Slaughter. The couple have resided there ever since.

Mrs. Slaughter is 80 and in good health. Mr. Slaughter has been confined to his bed for the last six weeks. A daughter, Mrs. Jennie Gamble of Marion, is assisting the household. The couple had two other children. A granddaughter, Mrs. Marie Gamble Stoffer of Marion, provided the information for the account of the Boston homestead.

Delaware, Maryland, Kentucky and Missouri all were represented in the Confederate congress, although none seceded from the Union during the Civil War.

Forest Brethren Billed At Moose Convention

By The Associated Press

COLUMBUS, O., Aug. 14—The Loyal Order of Moose will have two live forest-dwelling type of moose here for the international convention this week, J. Jack Stoehr of Pittsburgh disclosed.

Two moose were obtained from a French Canadian trapper, Joseph LaFamme of Agoma, 200 miles north of Toronto, and will arrive in Columbus Saturday, Stoehr said.

Stoehr said moose never have been exhibited at an international convention here.

Heat Stills Even Fans Of Sally Rand

By The Associated Press

Even the waving fans of Sally Rand were stilled today by the sizzling midwest heat wave.

The recent daily temperatures of from 95 to 100 degrees during the hours the fan dancer had been doing 12 to 14 shows a day at the Illinois state fair in Springfield were too much for her, a spokesman said today, adding that she has suspended the performances pending a physical check-up and the arrival of cooler weather.

But the cooler weather is on the way the weather bureau said. Widely scattered thundershowers and seasonably normal temperatures were forecast for a wide section of the midwest today, particularly the northern section.

They were moving eastward the bureau said, across northern Illinois and northern Indiana and would extend southward tonight with the wind swinging around from the northwest.

There were reports of scattered soaking rains in some localities, the forecaster said, notably in extreme southern Kansas, the Oklahoma and Texas panhandles, southeastern Colorado and in northern Michigan and Wisconsin. The corn belt generally was reported as still needing moisture, however.

For the northeastern and middle Atlantic states where some workers left or were sent home from their jobs yesterday because of the heat, continued temperatures in the high 80's were forecast for today. The Gulf states also would remain warm and humid the weather bureau said.

Grey W. Whitesell, 68, Claimed at Galion

Special to The Star

GALION, Aug. 14—Grey W. Whitesell 68, a well known Galion resident died at his home Wednesday following a 12-day illness. Two years ago he retired as car inspector with the New York Central Railroad company after employment with the company for 41 years.

Mr. Whitesell was born in Cincinnati Dec. 19, 1878. His marriage Aug. 20, 1902, was to Nina M. Metzger who survives. Also surviving are two sons, Wilbur of Cincinnati, and Howard of Galion; one sister, Mrs. Dean C. Talbott of Galion.

Funeral services will be held Saturday at 3:30 p. m. at the York funeral home with Rev. Herbert S. Gaines Jr., pastor of First Lutheran church, officiating. Burial will be made in Fairview cemetery. Friends may call any time at the funeral home.

JAIL GETS TRIM

BUCYRUS, Aug. 12 — Grey paint trim on the county jail is being replaced by several coats of buff paint as the result of recommendations for repainting the trim of the building by several grand jury bodies. Also recommended by grand juries over a period of years, the old front porch of the jail residence has been removed and new steps placed and new windows installed. Work of decorating the exterior of the building is expected to be completed in three weeks.

Aspen, "Ghost Town" in Colorado, Finds New Kind of Silver in Hills

By The United Press

ASPEN, Colo.—Aspen, for many years one of the musty, deserted "ghost" towns in Colorado's mining, reaps almost as much silver from its tourist business today as it once found in its mines.

Nestled 7,900 feet high in the Colorado Rockies, Aspen has been reconstructed as it was in the 1880's when fun-seeking miners trudged down from Smuggler Mountain and the Mollie Gibson mine for an evening of entertainment at the bars and Charlie Boyd's Theater Comique. But there the resemblance ends.

Though the physical appearance of the old and new Aspen may be similar, the people are different and the town's reason for existence has changed radically. For today Aspen has bounded into prominence as a resort for skiers, fishermen, skiers and hunters, and serves as a mountain haven for writers, actors and artists.

Championship Matches

Now its huge virtually unmapped terrain is the scene of championship skiing matches and a mecca for such internationally known skiers as Kris Berg, Steve Knowlton and Dick Durrance. The breath-taking beauty of its snow-covered peaks attracts tourists from the world over.

Aspen's rejuvenation started in January, 1946, when Walter Paepcke, board chairman of the Container Corporation of America, became convinced that the town would make an ideal recreation center. Combining the old mining town's atmosphere of the era of the Golden West and is panoramic mountains, winter sunshine and powdery snow, Paepcke opened his resort and ended Aspen's lethargy.

Aspen was settled originally in 1879 when a few prospectors straggled over the rough trails that lead to Roaring Fork river to seek the fortune in silver. The group was lucky. Aspen prospered. The average value of the ore in the Mollie Gibson mine was 600 ounces of silver per ton. At one time the mine produced $80,000 of ore in eight hours.

Money Flows Freely

The people lived well and spent freely. But in 1893 the Sherman silver purchasing act, which required the government to purchase certain amounts of silver at designated times was repealed.

Panic resulted. The price of silver dropped and thousands were unemployed.

There was some semblance, but only that, of prosperity during the First World War. Later the dreary 1920's knocked the last bit of life out of the town's paralyzed economy.

Finally, the Aspen Daily Times brought forth its last issue in 1930 with the announcement that "until dear old Aspen shows some dependable sum of coming back and until the millionaire mine owners show some disposition to help the town which made them rich, we bid you farewell."

And so Aspen became a ghost town.

But today it thrives once more.

penny arcade, said he was standing in the rear of his establishment when he saw smoke coming from the Bingo game. He said he ran to the front of the building and began to yell into the public address system: "Bingo's on fire!"

Volunteer firemen saved the roller coaster by soaking the area between it and the flaming building. Water was pumped from the lake, a distance of about 150 yards.

Metal Wall Used

Brown said a metal wall on the west end of the building which housed the shooting gallery apparently prevented the fire from spreading in that direction and threatening cottages in the Holtsberry addition only 10 feet away.

Electric wires carrying high voltage current endangered the crowd and Brown used the loud speaker system to warn spectators to be careful.

Manager Brown, who is employed by the Buckeye Lake Co. of Baltimore, Md., said the building was covered by insurance and that after a bit of cleaning up, park visitors will only notice a gap in the midway. Meanwhile, the park will continue to do business as usual, he said.

TRUMAN

(Continued from Page 1)

placements of congress, he said at the news conference.

Quickly then, Mr. Truman added that he has no doubt the labor department will be rebuilt eventually—that it can't be permanently torn up.

Congress made appropriations cuts which labor department officials have declared will mean a cut of one-third to one-half in the department's payroll.

Operations Reduced

As a result of these cuts, officials say, the division of labor standards will be abolished and operations of other divisions reduced. The labor standards division has been making studies dealing with safety and other industrial matters.

Also, the Taft-Hartley labor law took the U. S. conciliation service (which seeks to settle strikes and labor disputes) from the labor department and made it an independent agency.

Mr. Truman gave his appraisal of what congress did to the department after a reporter asked him about the future of various labor agencies.

The President was then asked if the last Republican platform did not promise a consideration of all the various activities dealing with labor under one department.

Can Recite Chapter, Verse

The President said it did and that he could recite chapter and verse.

He replied that the Republican record speaks for itself when a reporter asked if congress' action did not repeal this platform.

The President was asked if he contemplates transferring the unemployment compensation service to the labor department.

(It is now a part of the social security set-up)

The President said he does.

Asked if the purpose was to have both it and the United States employment service together, he replied in the affirmative.

They should be in one place, he added.

The President indicated he has no plans to call a labor-management conference, such as the CIO proposed as a move to seek voluntary cuts in prices.

He was asked to comment on the CIO proposal.

Last One Failed

In reply, Mr. Truman recalled that in November, 1945, he called a labor-management conference. He commented that it was not successful.

The 1945 conference was concerned with labor relations and economic matters.

The President said he would favor holding the 1948 Democratic convention anywhere the national committee decides.

He added that selection of a new Democratic national chairman—in the event Robert E. Hannegan steps out—is also a matter for the Democratic national committee.

He said he thought Agriculture Secretary Anderson, in response to a reporter's question, had let out not commitment himself on whether he thought Anderson should get the post.

Hannegan, who is also postmaster general, has said that his health will determine whether he continues in the cabinet post after the coming fall.

Anderson has been frequently mentioned in speculation as a possible successor in the event Hannegan gives up the post.

The President declared that he sees nothing on the horizon to require a special session of congress, thus virtually eliminating possibility of legislative action this year on new funds to aid Europe's recovery.

The President said he expects to make a series of appointments under the unified armed services act very soon, possibly next week.

He told reporters that he may be able to announce the appointments at his next news conference, which normally would be held next Thursday.

BURGLARS ON JOB

By The United Press

TOPEKA, Kan.—"I'll leave this for the burglars," Marcus Reeves, manager of a lumber company, said jokingly as he stuck $2.65 from a late sale into a desk drawer rather than reopen a locked safe. The next morning burglars had taken the $2.65, leaving a note: "Kilroy was here."

Radar is being used to chart the courses of hurricanes and storms, promising time to warn large areas and save lives.

Ex-Submarine Lookout Houses Polio Victim

By The United Press

NEWBURYPORT, Mass.—A white clapboard building used by the Coast Guard in World War II as a submarine lookout now serves as the nation's "first polio vacation center" for boys and girls suffering from infantile paralysis.

Some 100 children are enjoying vacations at the camp financed by the Essex County chapter of the National Foundation for Infantile Paralysis.

The vacationists, ranging in age from six to 16, stay at the camp for two-week periods. Boys live in the former coast guard quarters and girls bunk in a converted barn.

The camp has been rented from the Coast Guard on a five-year lease.

MRS. DOUGHTY DIES AT HER HOME HERE

Widow of Chas. Doughty Succumbs at 86.

Mrs. Isabel Doughty, 86, widow of Charles Doughty, died of infirmities of age at 10:30 a. m. today at the home of her son-in-law and daughter, Mr. and Mrs. M. G. Kennedy of 136 North Seiffer avenue, with whom she resided. An invalid for a number of years, she had been seriously ill the last six weeks.

Born June 1, 1861, near Chatfield, Crawford county, Mrs. Doughty was the daughter of William and Samantha Jones Mitchell. She had resided all her life in Crawford and Marion counties, coming to Marion more than 25 years ago. Her marriage to Mr. Doughty took place Nov. 22, 1883, near Bloomville, Seneca county. His death occurred in 1933. Mrs. Doughty was a lifelong member of the Church of Christ at Kirkpatrick.

Surviving with the daughter, Mrs. Kennedy, are a son and daughter-in-law, Mr. and Mrs. Marion Doughty, a grandson, Virgil Doughty and a great-granddaughter, all of Marengo. Surviving also are two sisters, Mrs. Howard Barrick of Tiffin and Mrs. C. E. Hershberger of Syracuse, Ind., and a sister-in-law, Mrs. Dora Clutter of Kirkpatrick.

PAYS GOLD TO PARK CAR.

By The United Press

FRANKFORT, Ky.—A motorist paid $2.50 to park his automobile 12 minutes on a downtown street here. When parking meter collector Ernest Braun checked machines a few days ago he found a $2.50 gold piece in the penny slot of one of the machines. A penny pays for 12 minutes parking time.

VETERANS' NEWS AND INFORMATION

Prepared by The Public Relations Service, Veterans Administration, Branch Office No. 6, 52 S. Sterling street, Columbus, 8, Ohio. Phone Main 6361; Ext. 351.

Vets Warned Against Education Contracts

A warning to veterans against signing contracts for unapproved educational courses or making down payments for them, if G.I. Bill benefits are to be used, has been issued by the Veterans Administration Branch Office in Columbus.

Complaints have been made recently to the VA by ex-servicemen who have been urged by representatives of unapproved schools to sign contracts for instruction and to make a down payment with the understanding that they would be reimbursed by VA.

VA officials cautioned veterans to check with the VA before signing for any course under the G.I. Bill. The government cannot pay a school for a veteran's training unless it is approved by the state or has a VA contract.

In any case, an approved school needs only the veteran's certificate of eligibility and does not require either an individual contract with the veteran or any down payment of tuition or fees.

Select Qualifications Boards for VA Nurses

Professional standards boards for nurses are being selected in the 10 Veterans Administration hospitals in Ohio, Michigan and Kentucky.

Designed to insure veterans of the highest professional standards of nursing and hospital care, the three-member boards will consider appointments, grade adjustments, separations and disciplinary actions. They will review at least once a year the records of each VA nurse at their respective stations.

Medical professional standards boards were established in all VA hospitals in the three states a year ago.

VA Seeks To Expedite Vet School Admission

A survey of all student veterans enrolled for the summer term in colleges in Ohio, Michigan and Kentucky is being made by the Veterans Administration as part of a plan to expedite enrollment and reenrollment of veterans in schools this fall.

Veterans now enrolled under the G.I. Bill are being asked by VA training officers if they plan to reenroll for the fall term and whether they will request accrued leave during the interim between the summer and fall sessions.

During the fall registration period, VA training officers will be present at each educational institution to assist in the registration and entrance of veterans into training. Training officers will determine that the proper VA forms are forwarded daily to the appropriate VA regional office to insure the prompt authorization of subsistence payments. VA also is asking each school to forward promptly the necessary enrollment forms to avoid delay in authorization of subsistence allowances.

Predict 16 Million Vets Out of World War II

At least 16,000,000 veterans will come out of World War II, according to the latest Veterans Administration estimates.

This includes the veterans already discharged from the armed forces and the soldiers, sailors, marines and others still in the service.

VA said the potential veteran population includes those persons who entered the armed forces up to July 25, 1947, when the war was declared officially terminated from the standpoint of veterans' benefits under the G.I. Bill.

VA Has Vacancies For Social Workers

Qualified social workers may file applications for positions in Veterans Administration hospitals, regional offices and clinics through the U. S. Civil Service Commission, VA announced today.

Information regarding these positions may be obtained from any first or second class postoffice, from the Civil Service Regional Offices throughout the country or from the U. S. Civil Service Commission, Washington, D. C. Applications should be sent to the executive secretary of the Board of Civil Service Examiners at the VA Branch Office which serves the area in which the applicants wish to work.

VA Branch Office No. 6 in Columbus serves the states of Ohio, Michigan and Kentucky.

Questions and Answers

Q. I am an honorably discharged World War II veteran and would like to know where I can obtain specific information concerning readjustment allowances while I am unemployed?

A. You should inquire at the public employment office or at the office of the unemployment compensation agency in the state in which you reside.

Q. What interest rates are lenders permitted to charge on G.I. business loans?

A. In most cases, four per cent is the maximum. However, the interest rate may be slightly higher for certain types of insured business loans.

Q. My husband receives compensation because of World War I service. Will I receive a pension at his death?

A. If your husband dies from a disability proved to have been contracted in military or naval service, or, if the death is from another cause and your income does not exceed $1,000 a year if childless, or $2,500 if with minor children, you may be eligible for a pension.

Q. In order to get a business loan under the G.I. Bill, will I have to operate the business myself?

A. Yes, the veteran must devote his personal labor or supervision to the enterprise or to the practice of a profession, on a full or part-time basis.

POLICEMAN MURDERS WIFE, THEN SUICIDES

By The Associated Press

CINCINNATI, Aug. 14—A retired city policeman, apparently maddened by jealousy, shot and killed his estranged wife last night and then turned the gun on himself as police pounded at the door of his apartment, Major Elmer O'Neil reported.

The victims were James A. Stout, 54, and Mrs. Louise Stout, 52.

A note, signed "James Stout" was found in the man's two-room basement apartment, O'Neil asserted, and said, in part: "My health is failing. All caused by my wife Louise who betrayed me and fooled me before and after I married her. • • •"

The Stouts had been separated for several years, O'Neil said.

The wife's body was found near a bed in the apartment and Stout's was nearby, O'Neil reported. Both had been shot in the head.

Stout apparently brought his wife to his apartment early in the evening, O'Neill said.

RUSSIA GIVEN WEEK TO JOIN KOREA TALK

By The Associated Press

WASHINGTON, Aug. 14—The United States gave Russia one week from today to "put up or shut up" in American-Soviet efforts to achieve a united Korea.

Stripped of its diplomatic language, that is the essence of Secretary of State Marshall's letter to Soviet Foreign Minister Molotov, setting an Aug. 21 deadline for a report on the long stalemated negotiations by a joint commission in Seoul.

If the Russians fail to put up by then, Marshall said, "each government may immediately consider what further steps may usefully be taken to achieve the aims of the Moscow agreement, namely the establishment of an independent, united Korea which can take its place among the United Nations."

American authorities represented Marshall as determined that the Korean negotiations must not bog down completely as have efforts to reach agreements with the Soviets on some other issues.

While the letter made no mention of what "further steps" this government might have in mind, some officials suggested the United States might take the issue back to a four-power conference in quest of some other method for reaching an agreement.

As a last resort, they added, this country might simply give up the project and concentrate on rebuilding southern Korea.

Marshall's communication, delivered to the Kremlin Tuesday by Ambassador Walter Bedell Smith, was made public by the state department while the secretary was enroute by plane to the Inter-American defense conference at Rio de Janeiro.

The Korean negotiations have been deadlocked a second time since July 2.

TO WIFE'S BEDSIDE. Dr. H. H. Kung, one-time premier of China, arrives in San Francisco enroute to the bedside of his wife, who is seriously ill in a New York hospital. The Shanghai ex-official denies any plans to confer with U. ERIE SPEEDS RUNNING TIME

Beginning Sunday, New York-Chicago Schedule Will Be 20-55 Minutes Shorter.

Special to The Star

CLEVELAND, Aug. 14—Running times between New York and Chicago of five Erie Railroad passenger trains will be reduced by 20 to 55 minutes beginning Sunday, Aug. 17, R. B. Rogers, passenger traffic manager of the Erie announced today. The change is made possible by the inauguration of new Diesel locomotives. A further reduction in running time of through trains will be made Sept. 28.

Following are the trains to be changed and the new schedules affective Aug. 17 and thereafter until further announcement, standard time shown:

Train No 1, The Erie Limited, operating daily from Jersey City west to Chicago, will leave Jersey City at 8:45 a. m., 55 minutes later than at present, and will arrive in Chicago as at present. The 55 minutes in running time will be made up between Jersey City and Galion, O., with no change of schedule at Galion and west.

Train No. 2, The Erie Limited, operating daily from Chicago east to Jersey City, will leave Chicago at 5:05 p. m. as a present, but will arrive in Jersey City at 7:00 p. m., 35 minutes earlier. The 35 minutes will be made up between Olean and Jersey City and time of scheduled stops between these cities will be changed accordingly.

Train No 5-15, The Lake Cities-Midlander, operating daily from Jersey City west to Cleveland and Chicago, will leave Jersey City at 7:45 p. m., 45 minutes later than at present, but will arrive in Cleveland and Chicago as at present. There will be no change in schedules west of Meadville, Pa.

Train No. 16-6, The Midlander-Lake Cities, daily, east from Chicago and Cleveland, will leave Chicago and Cleveland at present scheduled time, but arrive in Jersey City 20 minutes earlier than at present. There will be no change in schedules west of Corning, N. Y.

Train No. 7, The Pacific Express, daily, west from Jersey City to Chicago, will leave at 1:00 a. m., 55 minutes later than at present. There will be no change in schedule west of Olean, N. Y.

Schedules of through-train motor coach connections between Rockefeller Plaza, New York City and Jersey City Station will be adjusted accordingly.

HUBER FIRE DEPT, HISTORY REVIEWED

Talk Is Heard by Industrial Safety Council.

A history of the Huber Mfg. Co. fire department was given at a luncheon meeting of the industrial safety council of the Marion Chamber of Commerce Wednesday at the Manor House by Thad Kuenzli, director of industrial relations for the company. Three industrial concerns, Aro Expansion Bolt Co., Marion Engineer Depot and Osgood Co., reported no accidents during July. M. S. Dickenson presided.

Facts of interest concerning the Huber Co. fire department brought out by Mr. Kuenzli included the information that it was the first organized fire department in Marion, and preceded establishment of the city fire department by a few years. The late Thomas J. McFarland, who served as the city's fire chief many years, was fire chief for the Huber Co volunteer department before taking the city position. The company department has kept pace progressively with newest methods of fire fighting and has the most modern equipment, Mr. Kuenzli stated. The department's personnel of 15 men took 16 weeks of special training recently under direction of Kent State university. Quick action by the Huber fire department during the last year has undoubtedly prevented serious fire loss, it was pointed out.

Introduced was L. D. Peterson, personnel manager of the Perfection Steel Body Co. of Galion, a guest of W. C. Leonard of Mansfield, safety advisor of the industrial commission of Ohio who regularly attends the Marion safety council meetings. Mr. Leonard spoke on general safety problems.

It was announced that invitation for the next meeting was given by the McMillen Feed Mills, Inc., to attend the annual barbecue of that company Sept. 10 at Garfield park.

RUSS SAY U. S. IS TOP GREEK MEDDLER

By The Associated Press

LAKE SUCCESS, Aug. 14 — Russia charged today "the crudest interference into the internal affairs of Greece emanates at present from the United States."

This was interpreted immediately as a reference to the Truman aid program.

Giving the United Nations security council what he termed "an answer to the American speech made Monday, Soviet Deputy Foreign Minister Andrei A. Gromyko said foreign interference was worsening the situation daily inside Greece.

He also charged that former Axis collaborators were holding prominent positions in the Athens government.

Gromyko told the council:

"The situation in Greece worsens with every day because this foreign interference into the internal affairs of Greece not only is continuing but is also strengthened. All the world knows who is really interfering into the internal affairs of Greece and from what side Greece is threatened with real danger."

Rejecting American charges that Albania, Yugoslavia and Bulgaria were supporting Communist bands, Gromyko laid the blame at the door of the present Greek government in which he said "prominent positions are being occupied by people compromised in the past by their collaboration with the enemy."

4 Accidents Listed In Traffic Report

Four minor traffic accidents involving seven cars and one bicycle occurred Wednesday night within a six-hour period, city police reported.

A Safety Cab driven by Claude Persinger Jr., 23, of 429 Scranton avenue struck a bicycle with two riders at 4:20 p. m. on Toledo avenue near Silver street, police said. Persinger told the police he was unable to avoid the two boys when the bicycle suddenly swerved in front of the car. Both were headed south. The boys refused to give their names. No damage was reported.

Minor damage resulted to a car owned by Robert E. Wolbert, 27, of 117 Baker street when it was struck while parked in the front of the residence by a car driven by Mrs. Ruth R. Thomas of 220 Homer street. Mrs. Thomas was attempting to pull into a parking space when the accident happened at 8:27 p. m. police reported.

A car driven by Glen Elmer Mull, 23, of 146 Pennsylvania avenue was damaged slightly in a collision with another car at the stoplight at North Main and Fairground streets at 8:45 p. m. The name of the other driver wasn't known.

Minor damage resulted to cars driven by John Spencer Parsons Jr., of 174 Kensington place and James Garr of 528 East Farming street when they collided while leaving the ball park drive at Lincoln park at 10:35 p. m. according to police reports.

ELECTION CAUCUS CALLED

Harding '37 Class Reunion Scheduled For Next Sunday

More than 100 reservations have been received for the 10-year reunion of members of the 1937 Harding High school graduating class and their families.

The first homecoming for the graduates of that year will be at Lincoln Park Sunday, Aug. 17. Committee in charge requests all who attend to bring their own covered dish, sandwiches and individual table service.

More than 190 cards announcing the event have been sent to '37 graduates and over 100 have been returned. The class numbered 242 members at graduation but addresses of all were not available.

All graduates of that year are invited to the reunion whether they have received a card or not. Omission of a card would only be cause the address was unknown.

The dinner will be served at 1 p. m. followed by games and contests in the afternoon and evening. Entertainment for all ages has been planned and ponies will be available for children who wish to ride. Russell Dunlap will be master of ceremonies. A memorial service in honor of the graduates who have died during the last 10 years has been arranged by Harold Stafford. Several from the class were killed in World War II.

In the event of inclement weather activities will be held in the shelter-house on the grounds.

Truck Purchased For City Service

The Midtown Chevrolet company has been awarded the contract to furnish the city street repair and maintenance department a ton and a half truck at a cost of $1,677, SafetyService Director E. O. Uncapher reported today.

The truck, comprising chassis and cab, was stipulated for immediate delivery. The city board of control authorized the purchase Monday. Two bids were received, Mr. Uncapher reported

AUTO OUTPUT STAYS BELOW PAR LEVEL

By The Associated Press

DETROIT, Aug. 14—The auto industry, troubled by disputes over the Taft-Hartley law and "neat walkouts," continued below-normal production today.

While federal conciliators worked to end the three-week walkout of 7,000 CIO employes of the Murray Corp. of America, 10,000 Studebaker Corp. workers remained idle because of a shortage of parts from that firm, and production at Ford Motor Co. plants also was curtailed by a lack of Murray supplies.

The three-man federal conciliation panel that called representatives of Murray and the CIO United Auto Workers into session yesterday in an effort to settle the strike, found that new issues had been added to the union's demand for protection against certain provisions of the new labor law.

Another dispute involving the labor law affected the Gemmer Manufacturing Co. here, where 1,200 UAW-CIO employes walked out yesterday after union officers reported the firm refused for two weeks to negotiate a new contract pleading it did not know how the law applied to certain provisions.

Walkouts blamed on mid-90 temperatures yesterday idled 12,000 Chrysler workers, 8,000 at Hudson plants, and 600 at Ford.

The Ford concern had completed recall of 51,000 employes laid off last week because of the shortage of Murray parts. However, officials said production would not be up to normal until the Murray plants start making parts again.

Danish Boy Shows How To Succeed on Farm

By The United Press

ALLIANCE, Neb. — Seventeen years ago, Bill Rus left a farm near Bornholm, Denmark, and migrated to Box Butte county, Neb., where he became a hired hand at the age of 16

Today Rus owns 3,600 acres of land, rents another 1,000 acres, hires eight men who operate on a profit-sharing basis, is married and the father of an 11-year-old boy

Bill spent his first year in the new country as a farmhand in western Nebraska, working for meager wages. The next year he worked for wages and an interest in the crop

In 1935 he rented 560 acres of land He borrowed money for implements and operating expenses Despite drought years and low prices for crops, Bill managed to save. He started buying land.

Gradually he built up his holdings, six miles north of Alliance, and began hiring men to work on a profit-sharing basis. The men receive a bonus, depending upon for milk, and potatoes. They also receive a bonus, depnding upon the yield of wheat, potatoes, and other crops.

His 1947 crop consists of 1,000 acres of wheat, 400 acres of barley, and 400 acres of potatoes. Operating costs for the year will be around $125,000 But the profit will be a lot more

The cymbal is the oldest known musical instrument made of brass, and was used as early as 1047 B.C.

Printer for 60 Years Still Runs Own Shop

By The United Press

WAUKESHA, Wis. — Ethan L. Thomas, 77, has completed 60 years as a printer, all spent in Waukesha except one year on a Superior, Wis., newspaper

Thomas still directs a print shop here which he founded in 1905

"There was no point system for type when I first began in the business," Thomas recalled. "If a printer wanted a set of spaces and quads, he had to send along a few letters to a type company so they could match them for size."

1947 CAR ORPHANED

By The United Press

SPRINGFIELD, Mass. — These days it's easy to find a motorist without an automobile but not so easy to find a car without a motorist. Springfield police found a 1947 car with less than 400 miles on its speedometer and no registration plates, in a vacant lot.

BACKACHE, LEG PAINS MAY BE DANGER SIGN
Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter starts in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Nothing's "Too Hard To Get" With Marion Star Want - Ads!

Finding things hard to get? Having trouble locating a livingroom suite, a vacuum cleaner, an electric motor, a washer or what-not? Then read the want-ads every day.

You'll be surprised what rare finds you can pick up through a want-ad. Anything from a 16-tube radio down to an egg-beater—the kind of things that are mighty hard to get in the stores these days—and in practically every case you'll find them in good-as-new condition.

The want-ads are a great help to folks who find themselves up against the "shortage" problem. Let them help you. Make it a point to read the want-ads EVERY DAY.

It's easy to get "Extra Cash" too with the Want-Ads!

Look around the attic, basement or storeroom for things you no longer have any use for. A Want-ad will quickly find you a buyer with ready cash. Take advantage of the low 6-day rate but CANCEL your Ad the moment its purpose has been accomplished. You pay only for the number of insertions used.

SUPERCOVER HOUSE PAINT

Carries the Formula Plainly Printed on EVERY CAN!

Hear Bill Zipf, WBNS, 12:30 p. m., Monday Through Friday

Offering Convincing PROOF

That This Premium Quality Paint

Gives You TRUE PAINT VALUE

At A Very Low Yearly Cost!

GOOD PAINT is the best investment in protection for wood you can make! —and GOOD PAINT, like Supercover, is never ashamed to carry the formula plainly on every can. So don't be fooled—read the formula which should be on every can of any paint you consider; compare it with Supercover. Because only PREMIUM QUALITY ingredients go into SUPERCOVER, it is a Premium Quality Paint but due to our Mass Retail Distribution methods, you don't pay a premium price for SUPERCOVER!

SUPERCOVER FORMULA

**For White Paint*

PIGMENT	60%
White Lead	25%
Zinc Oxide	25%
Titanium Pigment	50%
Total	100%
VEHICLE	40%
White Refined Pure Linseed Oil	85%
Flow Accelerator, Thinner and Dryer	15%
Total	100%

*A color formula contains necessary changes for color content.

SELF CLEANING, It Comes Up Shining After Each Rain!

Heavy rains wash self cleaning Supercover, taking dust and dirt with it, leaving your home clean and white after years of service. This "self-cleaning" process is gradual, so that after years of service YOUR house painted with Supercover, gives an ideal repaintable surface.

Spreads SO Easily, SO Smoothly, YOU Can Apply It!

Because Supercover covers with extra smoothness, you can easily paint your home in your spare time and obtain a professional-like job, and save even more.

Because it Contains FLOW ACCELERATOR . . .

It Knows No Superior at ANY PRICE!

These Photomicrographs (magnified 20 times) made by a testing laboratory, show better than words how Flow Accelerator makes SUPERCOVER flow out smoothly without hills and valleys, as in ordinary house paint. That's why Supercover covers better and stays cleaner, because it holds no dirt-catching brush-marks. Supercover WHITE is whiter because it is self-cleaning and comes up shining after each rain, even after years of service.

We invite you to compare C&F Supercover House Paint with the most expensive nationally advertised house paints. You cannot buy or mix a finer exterior house paint than Supercover, which contains FLOW ACCELERATOR Flow Accelerator is used only in Supercover House Paint.

1—SMOOTHER

Microscopic Picture at left clearly shows how much smoother Supercover flows out than ordinary paints due to Flow Accelerator and the other premium quality ingredients.

2—GREATER COVERAGE

Because Supercover contains FLOW ACCELERATOR you can actually cover a greater amount of surface than with ordinary paints. FLOW ACCELERATOR causes Supercover to flow uniformly smooth and even.

3—LONGER LIFE

The smooth, glossy cover does not offer as much exposed surface to the wear of the elements as does the uneven, ridged surface of the ordinary house paint.

4—GREATER HIDING

As a result of laboratory experiments the hiding power has been stepped up. Supercover has 25% to 40% more hiding power.

5—SUPERCOVER WHITE IS ACTUALLY WHITER

Make this test to prove Supercover is whiter. Dip a clean paddle into Supercover White and let the paint drip from the paddle into any other brand of white paint, you will see that Supercover makes a whiter spot.

$4.69

4-H Clubs To Hold Crawford County Fair

BUCYRUS, Aug. 14—Premium books have been printed and distributed and exhibitors are giving their livestock a last grooming in preparation for the 4-H club fair to be held at the county fairgrounds Monday and Tuesday.

The program will include both afternoon and evening events on Monday and an afternoon program on Tuesday. Highlights will include a pony show Monday night sponsored jointly by the county fair board and the county children's home. Thirteen events will be featured in the pony show.

Livestock exhibits will be judged Monday afternoon and junior 4-H demonstrations and a livestock parade are also on the Monday night program. Finals in the 4-H club softball tournament, a FFA pulling contest and dairy beef, hog and sheep judging as well as a livestock sale and girls' style show are on the Tuesday afternoon program. The junior fair will again be substituted for the county fair, abandoned two years when it became evident that insufficient time remained for rebuilding the race track and making other repairs, necessary after the grounds had been used as an army camp during the war.

WEDS KURUSU KIN. Frank White son of the late Dr. Frank W. White, Rockwood, Pa., is marrying Teruko Kurusu 21, at Yokohama, Japan, where Saburo Kurusu former Japanese envoy was dealing for "peace" in Washington at the time of the Pearl Harbor incident, as his father-in-law. White, a former army officer is now attached to Gen. Douglas MacArthur's Tokyo headquarters.

Universal Cooler Picnic Set At Crystal Lake Park Sunday

The annual picnic for employes of Universal Cooler Division of International Detrola Corporation will be held Sunday, Aug. 17, at Crystal Lake park, according to an announcement by S. T. Rose, director of industrial relations.

A special entertainment feature of the picnic program will be provided by four members of the Ohio State university swimming team one of the country's top groups in college aquatic sports. The four will give demonstrations of swimming and diving.

This years picnic has been computed to include all the office, factory and service employes of the two Marion plants of Universal Cooler Division as well as those employed at the Bellefontaine plant.

The annual picnic is a family affair and will be attended by approximately 1,100 employes with their families.

To Start at 11 A. M.

The picnic will begin promptly at 11 o'clock in order to facilitate completion of the contest program and the Marion plant versus the Bellefontaine plant baseball game to be played in the afternoon. The employes are to bring well-filled picnic baskets so they may remain all day and partake in the festivities. Soft drinks and ice cream will be served by the company. Contests of all descriptions, with merchandise prizes will be conducted for picnic-goers of all ages from 2 to 82. A few of the contests, which total 32 include races, pie-eating, cigar smoking, hoop the chicken and other similar popular events. In event of rain the program will be held in the Crystal Lake ballroom.

The Universal Cooler Division has arranged with the park management for free bathing for all employes and families throughout the day. Free roller skating in the Crystal Park ballroom will be held for two hours in the afternoon. Free pony rides for the children are also planned. Several prizes have been rented so that children will be able to participate.

To enable all those attending to keep abreast of the events, a loud speaker system will be installed for announcing the various events.

One of the highlights of the afternoon will be presentation of awards to those employes who have completed five, 10 and 15 years of service as of the date of the picnic. The five-year award is an engraved silver key. The 10-year award, an engraved gold key and a gold watch with the party's name and dates engraved on the back. The 15-year award is a gold key with a diamond setting.

Announcement also will be made of the formation of an "Old Timers Club." To be eligible for the club, employes must have service records of 10 or more years with the company. The club will meet at a later date and draw up by-laws and elect officers. It also will function throughout the year and hold regular meetings. Those eligible for club membership will be announced at the picnic.

Evangelist To Be At Asbury Church

Rev. D. Clark McPherson, a general evangelist of the Methodist church, will be speaker for an evangelistic campaign which will open at the Asbury Methodist church at Lee and Evans streets Sunday night, Rev. J. William Myers, pastor, announced. The meetings will continue through Aug. 31 at 8 each night, and at various services there will be special singers and instrumentalists from various parts of the state. An amplifying system will be used.

Rev. McPherson received his theological training from the Moody Bible institute at Chicago, Ill., and is described as a "fearless preacher of the evangelical faith of Methodism." Sunday morning at Asbury church, Rev. Alfred Sams of Marion will preach.

Tomatoes were not eaten before the middle of the 19th century because they were believed poisonous.

NEVER BEFORE
have you seen such a Washday Miracle!

IT'S TIDE
Procter & Gamble's amazing new discovery!

You've never used anything like it! Tide does *what's never been done before* —washes clothes cleaner than any soap, yet leaves colors brighter! It's a true miracle of modern science, made possible through wartime research. You'll know it's a completely NEW product the first time you try Tide. Tide's wonder suds billow up instantly, even in *hardest* water . . . they *look* different, *feel* different! And when you see the amazing *job* they do, your first package of Tide will change all your old ideas about washday!

NO OTHER WASHING PRODUCT KNOWN CAN MAKE THIS STATEMENT
Tide
GETS CLOTHES CLEANER THAN ANY SOAP MADE
—yet actually
LEAVES COLORS BRIGHTER

ONLY Tide DOES ALL FOUR!

1. Washes clothes cleaner!
Yes, cleaner than any soap made! Even greasy *overalls* come cleaner! Tide leaves clothes free, not only from ordinary dirt, but from gray, dingy soap film as well.

2. Actually brightens colors!
Yes, dainty washable colors that have become soap-dulled actually come out *brighter* as Tide makes dulling soap film disappear!

3. Never "yellows" white things!
What a blessing for precious, hard-to-get white things! No matter how often you wash them or how long you store them, Tide can't turn them yellow!

4. Gives more suds — Proves it in your dishpan!
Thick-to-bubble suds! Flashy suds! Longer-lasting suds than any soap or washer suds! Tide gives the weight . . . makes dishes cleaner than any soap!
No grease in the water!
No greasy ring around the pan! No cloudy film!
That's why dishes and glasses rinse and dry so spot free and shine clear—even without wiping!

Noted Christian Layman To Speak At Meetings Here

Robert G. LeTourneau, one of the country's leading industrialists who is classified as "America's Leading Christian Layman," will be heard in a two-day speaking engagement Sept. 27-28. The meetings will be held in the chautauqua pavilion at Garfield park.

The Kiwanis club is sponsoring the Saturday night meeting, and Mr. LeTourneau will be heard Sunday under auspices of the Marion Ministerial association.

As a Christian layman, Mr. LeTourneau is an outstanding leader in his unselfish contribution of time and money to God's work. Eleven years ago he operated a small garage which has grown to a large five-factory corporation doing a yearly business of over 30 million dollars and employing about 4,000.

Through company shop meetings and his weekly factory paper, "New," Mr. LeTourneau reaches everyone of his employes with an evangelistic program. Also, his personal time and money are completely dedicated to God. In constant demand as a speaker, he speaks as many as 10 times a week.

Members of the Kiwanis church committee in charge of plans for the meeting are Dr. G. G. Nuetzel, chairman, Rev. J. B. Holloway, John Clark, A. C. May, L. M. Sager, Thomas D. Scott and Robert O'Connell.

Buchenwald's Queen Gets Permanent Address

By HAL BOYLE
Associated Press Writer

NEW YORK—There must be [illegible] in heaven and hell over the news from Germany today—that Frau Ilse Koch is to spend the rest of her life in prison.

There are thousands of spectral victims of Nazi persecution who [illegible] rather would [illegible] fold their wrists over their breasts, or [illegible] their hands gasping into the sky. They are the dead people who once knew her as the "Queen of Buchenwald," the Nazi concentration camp outside Weimar where some 50,000 prisoners were put to death.

Hal Boyle

But perhaps there is a fitter justice in the decision by an American war crimes tribunal that this 41-year-old red-haired widow of infamy should spend the rest of her days behind bars.

Certainly no woman in history enjoyed prison life more at one time than Ilse Koch, wife of the former commandant at Buchenwald who himself was put to death in his own butcher chamber. Now she will have a long opportunity to study prison life from the other side.

Unbelievable Woman

Frau Koch is an unbelievable woman to the few people who still dismiss the Nazi mass executions as "war propaganda." Such people do exist.

I first saw Buchenwald, where the dead were piled like logs, shortly after Gen. George Patton's Third army swept victoriously through the birthplace of Germany's short-lived republic that followed the First World War.

Unfortunately, I didn't get to meet Frau Koch. She wasn't there. But I did get to meet scores of prisoners who remembered her with curses. And I got to see her husband, former ruler of the camp. He was in a small jar. The Nazi authorities placed him there after cremating him for a bad habit he developed of stealing party funds.

One prisoner, a former major general who had commanded the royal palace guard in Vienna when the Nazis moved into the Austrian capital, picked up the jar of ashes and shook them in weak merriment.

Belongs With Husband

"It's nice that we have Herr Koch always with us," he said. "But Frau Koch should be here in another jar also. A wife belongs with her husband."

The major general and other prisoners told me stories of Frau Koch that a man finds hard to believe about any woman. But they couldn't well be refuted.

Ilse Koch denied during her trial that she ever had prisoners killed merely to build up her collection of lampshades made of tattooed human skin. But the men in the camp said that she often walked around bare-waisted groups of prisoners seeking those with interesting tattoos to add to her collection. And I saw the lampshades of human skin. They weren't antique. She was quite a connoisseur.

Ilse Koch had other interesting diversions too.

She loved horseback riding. She liked to gallop through the woods adjoining Buchenwald and ride full tilt into groups of prisoner laborers too slow to escape. She never halted to determine the deaths or injuries she inflicted. This is on the testimony of the philosophic Austrian major general, a man so inured to prison horrors he was incapable of feeling anger.

Nothing Like Her

Ilse, a full-bodied woman, also enjoyed addressing obscene remarks to the prisoners and luring them into sexual overtures, whereupon she had them flogged for her pleasure.

There has been no figure in real life of literature to compare with Ilse Koch since flagrant Messalina, in the days of decadent Rome's Saturnalia.

Surly, wicked and unpenitent, she managed to get herself with child while still imprisoned—a situation which her American army captors may find hard to explain. Did that help save her from the death penalty?

Terrible as was Buchenwald, I remember less the stories of the horrible excesses of Koch and his unnatural frau than I do the reaction of the Austrian major general there when I gave him an orange on parting, my own ration for the week.

He looked at it and cried. A man once wealthy and influential, he hadn't seen an orange for six years. To him it had become as strange as—freedom.

Manufacture of floor and wall tile has been greatly speeded up since 1920 through the widespread use of kilns which operate continuously.

Trial of Toledo Dancer For Murder Set Sept. 9

By The Associated Press

HAVANA, Aug. 14—The trial of Patricia Schmidt on charges of murdering John Lester Mee of Chicago was set for Sept. 9 in Havana criminal court, Wednesday.

Three magistrates of the court will hear the case, there being no trial by jury in Cuba.

Jesus Coll will head the prosecution. He was expected to demand the maximum penalty for any crime in Cuba—30 years imprisonment. Rene Castellanos, defense attorney, was expected to maintain that Miss Schmidt killed Mee in self defense last April 8 when he allegedly attacked her aboard his yacht, the Satira, on which the couple spent a Caribbean vacation.

Judge's Order Obeyed With Collect Telegram

HOUSTON, Tex.—District Judge Frank Williford permitted an army veteran to return to his farm near Wells after his mother wrote and said she needed someone to do the work. The youth was accused of writing a worthless check.

"Go home to your mother as fast as you can," Judge Williford told the boy, "but wire me when you get there."

Judge Williford got the telegram all right, but it came collect. The cost—45 cents.

WED AT BUCYRUS

BUCYRUS, Aug. 14—Miss Helen Jean Heiman, daughter of Mr and Mrs. Fred J. Heiman, and James V. DiBlasi, son of Mrs. Mary DiBlasi were united in marriage by the Rev. Fr. Leo Bernartz in a double ring service at Holy Trinity Catholic church yesterday. Attendants were Miss Rosemary Kline, the maid of honor, and Miss Josephine DiBlasi and Mrs. James Lemke, bridesmaids. Paul DiBlasi, served as brother as best man and ushers were Joseph Volpe and Louis Lanzilotti. The bride is a graduate of Mt. Zion high school. She also attended Tiffin Business university. She is a stenographer in the USES office here. Mr. DiBlasi, a veteran of the Navy, is manager of the meat department at Galion Square market.

TO SPEAK AT ADA

KENTON, Aug. 14—Fred J. Milligan, secretary of commerce of the State of Ohio, will be the guest speaker at the 34th Annual Farmer and Merchants picnic to be held at Ada, Aug. 20. The event is held in Memorial park and each year attracts a crowd of well over 5,000 persons.

A Treat To Beat the Heat

ICED TEA WITH MINT . . . served in stoneware mugs.

By CHARLOTTE ADAMS
Associated Press Food Editor

"Come over for tea," in summer, usually means iced tea, though there are those among our British and other European cousins who consider the icing of that beverage a barbaric custom. We in the United States, however, drink more tea iced than hot. Iced tea is a delectable thing when the weather is warm and sultry.

Make your tea strong—double strength, in fact—and make it fresh for icing. Never make it and store it in the refrigerator for hours. No improvement, only deterioration of flavor, results.

Let's think up a good variety of foods to go with this iced tea party. First come the sandwiches. Get some of those very small loaves of salty rye bread with caraway seeds in it and spread them with cream cheese which has had chives chopped up in it.

Tuna fish or salmon, mixed with mayonnaise and a dash of chopped fresh dill, are both nice tea sandwiches.

Thin, thin slices of cucumber, spread lightly with sour cream and treated to a grind of fresh pepper, are awfully good between dark pumpernickel bread.

A dish of red caviar set in a bowl of crushed ice, accompanied by a bowl of sour cream, a little dish of chopped chives, and a plate of crackers, offers the makings of a delicious tea accompaniment.

For the sweets, cookies are a tasty touch.

Galion Club Leaders Plan Civic Center

Special to The Star

GALION, Aug. 14—Another step toward the establishment of a Y. M. C. A. for Galion, was taken at a meeting Tuesday night, at Hotel Talbott, which was attended by representatives of Rotary, Kiwanis, Junior Chamber of Commerce, the Galion Business and Professional Women's club, other civic organizations, and three members of the Galion Youth Center board. The meeting was called for the purpose of discussing the Y. M. C. A. project and also to consider sponsoring a projection to purchase a property for Galion Youth Center.

The group present for the dinner-meeting at Hotel Talbott, heard a talk by L. L. Hill, secretary of the Y. M. C. A. at Crestline. A report also was given by representatives of the Galion Youth Center asking for support in the purchase of a property. Representatives decided to return to civic groups before making a decision as to which project to back. It was decided that all groups will work together. Choice of the project will be made at another meeting in the near future.

ASSISTANT PROFESSOR

GALION, Aug. 14—Mrs Melvin W. Nichols of Galion has been given the rank of assistant professor, as group work field instructor at the School of Applied Sciences, Western Reserve university. This announcement has been made by President Winfred G. Leutner.

PICNIC AT PROSPECT PARK

A joint picnic meeting for 60 members and guests of the Katherine Luther Guild and Missionary Aid society of St. Paul Lutheran church at Prospect was held last week at Prospect park. During a business session announcement was made of a rummage sale to be held in the near future. Norma Jean Ward played an accordion solo and Rev. Paul E. Dobberstein, pastor, talked briefly on the lesson topic, "Walking Worthily for the North American Indian."

Chuck Steer said: Had another nightmare last night. I was being gobbled up at a big banquet.

Pennsylvania's Worst Traffic Snarl Ended

By The Associated Press

ELIZABETH, N. J., Aug. 14—The twisted mass of 23 derailed freight cars which tied up what the Pennsylvania railroad lists as the busiest tracks in the world were cleared by wrecking crews early today, ending a 24-hour traffic snarl described by officials as one of the costliest in the railroad's history.

No one was injured in the wreck, but the tangled heap of freight cars sprawled over all four mainline tracks leading to New York City, blocking all traffic here for 12½ hours. C. A. Bower, assistant superintendent of the Pennsylvania's New York division, said the derailment was caused by a burned-out lubricating device on the wheels of the train's 13th car.

Montreal is the largest inland port in the world.

THROWN FROM CYCLE

KENTON, Aug. 14—Gene Laubis, 20, son of Mr. and Mrs. L. Pat Laubis of near Kenton, is in very serious condition in Antonia hospital following an accident while he was riding his motorcycle Tuesday evening on Route 68, three miles south of Forest.

Gene was riding along when the cycle skidded in some loose gravel throwing him. He was brought to the hospital by Shields ambulance of Forest and is under the care of Dr. Dewar. He is suffering from head injury and other possible undetermined internal injuries. The accident occurred about 9:15 p. m. Tuesday.

FOSTORIA BOY KILLED

FOSTORIA, O., Aug. 14—Ronald Molter, 13-year-old son of Mr. and Mrs. Paul Molter, died in a hospital last night from a gunshot wound suffered when a revolver accidentally discharged in the hands of a 14-year-old companion.

Movie Actor At 96 Sees Career As Just Starting

By The United Press

LONDON—"Beg pardon, son," said the man slipping by Sir Aubrey Smith at Denham Studio.

Sir Aubrey, who is over 80, blinked.

"Did you say 'son'?"

"Certainly," said the man testily. "I said 'son.' I've got a son almost your age."

And off he pattered to the set of the new Paramount-British film, "So Evil My Love."

There are greater names in the film world than George Wilson—but there are none older. Now in his 96th year, he is almost certainly the oldest film actor on both sides of the Atlantic.

"I don't get much billing yet," he admitted during one of the innumerable tea "breaks" through which British films stagger to completion. "But wait till I hit that 100-year mark and then I'll get plenty. I might even be a featured player by that time."

Wilson is a formerly prosperous business man who started taking film work after his retirement about ten years ago because he found leisure too wearing. He gets plenty of jobs. He even had a couple of stage atmosphere bits.

He is middle height, erect, with a fringe of gray hair around his bald head. His eyes are clear, his hands steady and his reflexes as prompt as those of a man several decades younger. He has no formula for his extraordinary condition other than maintaining an interest in life.

In this new Hal Wallis film Wilson plays a tavern frequenter who is a crony of the star, Ray Milland. He is in camera a good part of the time and cheerfully admits that he is no different from any other member of the cast—he likes to be in the center of the action all the time.

His main regret is that he waited 40 years as a military outfitter when he could have been acting all the time.

"My son," he said, ending the interview, "is waiting for me."

At the gates was the son, Lambert Wilson, who is almost 70.

CLEVELANDER ADMITS MURDERING WOMAN

By The Associated Press

CLEVELAND, Aug. 14—Powerful, 260-pound Christian Van Dalen has admitted he raped and strangled a 31-year-old hotel housekeeper only a few hours after meeting her for the first time in a bar, Detective Lt. David E. Kerr reported.

Kerr, who said he would file murder charges against Van Dalen today, quoted the 28-year-old New York Central railroad machinist's signed statement as saying he killed the woman, Mildred McKelvey, in a clump of bushes after she repulsed his advances.

The woman's nude, beaten body was found at Brookside park Sunday afternoon.

She was the mother of a 12-year-old boy, now under the care of her estranged husband in Chambersburg, Pa. Van Dalen and his wife have two small girls.

It was Van Dalen's fondness for carrying a brown, portable radio that led to his arrest, Kerr said.

Authorities said they were told they saw Miss McKelvey leave a bar with a powerful man carrying a radio, and Kerr declared he located him by adding this report to several other leads.

He said authorities arrived at Van Dalen's house yesterday and found him asleep in his bedroom. Two hours later, Kerr said he had a signed statement.

RECORD CROWD SEES CUBS WHIP DODGERS AGAIN, 12 - 7

By DON C. BURTON

Great relief hurling by Frank Smith plus some classy clouting in the clutch gave the Marion Cubs their third straight win over the loop-leading Zanesville Dodgers, 12-7, at Lincoln park last night.

A capacity crowd of 2,600 fans saw the Cubs cut the Zanesville lead to four games with two more to be played in the series here. The large crowd was a record attendance here for any game except the season opener last year when a special pre-saeson ticket sale and the presence of (Happy) Chandler and Frank Lauscre drew 3,500.

The totals for the three games played with the Dodgers this week has now reached 8,800 and with a capacity crowd expected tonight and tomorrow night a new Ohio State league record for a series between two teams is expected.

Takes Over in First

Frank Smith took over for the Cubs in the first innings with two out after the Dodgers had clouted starter John Edington for four runs. Lanky sidearm Frank allowed the loop leaders only five hits over the remainder of the route, striking out 11 while walking only three. His mates gave him errorless support in the field. It was Smith's fifth win against four losses.

Manager Clay Bryant sent Smith

to the mound in an effort to stop the Marion streak. George Seeley started and was the loser when he left the winning run on base in the fifth round. Tom Haren allowed the runs to score, plus one of his own making before he was relieved in the same inning by Sierdadski.

The Marion win gave the Cubs a record here of seven wins in eight starts against the Dodgers. The Bums have pummeled the Cubs a fair number of times in eight starts at Zanesville to make the two clubs even for the season with eight wins each. Four games remain to be played between the two teams, two here and two in Zanesville.

Spot "Bume" 4 Runs

After spotting Bryant's crew four runs in the first inning on four hits and a walk off Edington, the Cubs came back for three in the bottom half. A home run by Ray Dapez over the left field fence off Smith gave the visitors a 6-3 lead in the third.

An error on Boozean's grounder, a hit by Jim Forbes, a single by Roy Hollingshead and an infield out gave the Cubs two runs in the fourth, to pull within one run of the Dodgers.

The Cubs took over the lead in the fifth with three tallies. Manager Nelson Burbrink walked and Dwight Maxhimer singled before Bryant removed Seeley in favor of Tom Haren who immediately uncorked a wild pitch to plate the Marion skipper. Haren walked Bob Shuford and then Jim Forbes doubled to plate two runs before Sierdadski came on to retire the side.

Maxhimer Homers

Hits by Mel Nelson and Gene Boozean aided by an error gave the Cubs a run in the sixth. In the seventh Dwight Maxhimer drove a pitch over the scoreboard with two runners on base to add three more runs. Max will receive a $25 war bond for the clout.

The Dodgers got a futile run in the ninth on a double by Cy Lambert, pinch hitting for Sierdadski, and a single by Joe Breslin. Breslin, former Luma outfielder signed by the Dodgers yesterday, was out when he tried to stretch the hit to end the game.

Manager Burbrink has nominated Bert Flamm for nursing duties tonight in an effort to keep the Dodgers on the run. Bert tasted

the bitter dregs of defeat for the first time at Dayton Sunday when he had the game apparently won in the final inning. He has won six times since joining the team a month ago.

Umpires Come Through

Although the series with the Dodgers has been a hot one the three umpires have worked in satisfactory style. John Chambers, former big leaguer with the Cards and Dodgers, along with Staley have had few disputes with the players. Freon worked the two games out was replaced night with Hart, a newcomer.

Win Helps Close Gap in Sunday School Standings.

St. Mary 1 softball team a notch nearer equaling Sunday School league leading Forest Lawn's record 16-7 with a victory over United Brethren last night.

In the other game of the evening Greenwood slipped by Trinity, 11-10, in six innings. Trinity has filed protest, charging faulty scorekeeping.

St. Mary 1's victory gave them a record of four wins against no defeats. Forest Lawn has won five and is undefeated. The race will become more clear cut when St. Mary can run off the two make-up games they have on the schedule and Forest Lawn can make up their one.

In last night's game Leser and King got three hits each for St. Mary and C. Long lead U. B with two.

The Greenwood victory over Trinity gave them a league record of three and three while it made Trinity's one and three. Trinity has make-up games to play with Epworth and St. Mary 2, while last night's tilt squares away the Greenwood schedule.

Thorpe led Greenwood hitters with three and Mulvane, Rice, and C. Gorby each got a homer for Trinity.

In protesting, Trinity is charging that the scorekeeper gave Greenwood credit for six runs in the fifth inning when they only scored five.

FORM SOFTBALL TEAM

The Church of the Brethren located at Reed and Church streets is forming a softball team, which they hope to enter in city softball next season. Rev. Ellis Gutnerie is managing and handling mound chores. Last night the team played a practice game with Forest Lawn and was stopped 9-4. Forest Lawn is leading the Sunday School league. Rev. Gutnerie is pastor both churches.

RUDY YORK HOMERS FELLER OUT OF PARK

4-Run Blow Dashes Robert's Hopes for Win 15.

By The Associated Press

CHICAGO, Aug. 14—Rudy York is one redskin the Cleveland Indians would like to see scalped back to a south-of-the border reservation.

For the big White Sox Indian's bat spelled disaster to Cleveland's hopes for a return to the 500 mark last night as it accounted for a quartet of runs in Chicago's 8-7 victory over the Tribe.

Bob Feller, returning to the mound after only two days' rest, was treated rudely by most of the Chicago lineup, but York's 17th homer in the seventh slammed the door on Rapid Robert's hopes for his 15th victory.

The Tribe erupted for six runs in the third with a five-run blast highlighted by Joe Gordon's 20th homer with two aboard. Hegan rapped his fifth homer into the left field stands before the roof fell in on Feller in the seventh.

Pinch-hitter Thurman Tucker started the damage with a home run into the right field stands. Killoway then doubled and Taft Wright was hit by a Feller fast ball before York blasted his sixth homer of the month to give Boo his ninth loss against 14 victories.

Manager Lou Boudreau still is sidelined with a leg injury.

MOOSEHART, Ill., Aug. 14 — The 36-hole Tam O'Shanter Country club golf course in Canton, O., will be the scene of the national golf tournament of the Loyal Order of Moose Sept. 28, an announcement by the fraternal organization said today.

The American League, in its first season of 1901, drew 1,658,000 fans as compared to the 1,857,000 fans who attended National League games that season.

Fremont Slugger Is Too Vicious for Health

By The Associated Press

FREMONT, O., Aug. 14—Neal Waggoner, third baseman-manager of the city championship Howard Zunk Corp softball team, takes a vicious cut at the ball—too vicious, in fact.

In the title game with the Catholic War Veterans, Waggoner slammed a home run. On his trip to the plate, he took a mighty swing and there was a sharp "crack." But it wasn't the sound of hickory meeting horsehide. It was the snap of a muscle in the arm of Waggoner, who celebrated his team's victory as a hospital patient today.

Dodgers Gain Half Game as Robinson Burns Base Paths

By The Associated Press

Jackie Robinson, Brooklyn's daring young man on the baseball paths, was being acclaimed today as the greatest base runner in the majors since the departure of Ty Cobb.

Robinson made two hits in yesterday's 10-5 Dodger victory over Boston which increased Brooklyn's first place lead over idle St. Louis to three and a half games.

After Johnny Sain struck out Ed Stanky, Dodger leadoff batter, in the first inning, Robinson outdistanced a bunt down the third base line and when Sain, in his anxiety to nip the speedster, threw wild past first, Robinson raced all the way to third. The Brooks followed with three more runs, sent Sain to the showers, and scored four runs.

Bunts Again

In the fifth Robinson crossed up the Braves with a push bunt. Before Boston got out of the inning the Dodgers had scored five runs and taken a safe lead.

Behind the six-hit pitching of lefty Ken Heinzelman, the Philadelphia Phillies made it two in a row over the New York Giants with a 3-2 victory.

Hal Newhouser, entrusted with the job of preserving Detroit's two-run margin over the St. Louis Browns in the eighth inning of the second game of a twilight-night twin bill, gave up three runs and dropped his 13th decision against 11 victories. It was his first defeat by the Browns after 15 consecutive victories over them in a three-year span. The Brownie 6-5 victory gave them a split as the Tigers, behind Fred Hutchinson's nine-hit pitching, won the opener 7-1.

Bob Feller failed to hold a 7-4 Cleveland lead as the Chicago White Sox pounced upon his fast ball with a four-run uprising in the seventh to defeat him and the Indians, 8-7.

The New York Yankees retained their 11-game margin over the second place Boston Red Sox in the American league pennant race by defeating the Philadelphia Athletics, 8-2, at the Yankee stadium.

The Red Sox took their eighth straight home victory from Washington, 10-3, before 34,451 customers. First inning homers were walloped by Sam Mele, Bobby Doerr and Jake Jones. Jones added another in the seventh.

Four home runs, two by catcher Homer Howell, one with the bases loaded, helped the Pittsburgh Pirates whip the Chicago Cubs 10-2. Billy Cox and Ralph Kiner were the other homer hitters.

The Cards and Cincinnati Reds were not scheduled.

SHANTY TOWN WHIPS PROSPECT CLUB, 9-4

Playing to one of the largest crowds to appear at Prospect community park this season, Shanty Town Bar last night humbled Prospect American Legion, 9-4. It was the third loss of the season for the American Legion. The crowd was estimated at over 1,000.

Shanty Town catcher Grubbs paced the Marion squad with a triple, two doubles, and a walk to get on every time up. C. West homered. Jones hit three for five, and Harris bettered this with three for four. Rider of Prospect hit a three run homer in the sixth and Fryman got Prospect's only other hit.

Tomorrow night Prospect will entertain Osgood at 8:15. The feature game will be between Veteran's Administration and Williams-McNab Morticians, both of Columbus.

ASHLAND WINS SIXTH SOFTBALL TOURNEY

The Ashland Indians won the softball championship of the sixth district at Mt. Vernon last night by defeating the Gorman-Rupp team of Mansfield, 3-1. The Ashland tosser, Bob Renney allowed the Mansfielders only one hit, a single with two out a man on second as the result of an error in the sixth frame. A crowd of 6,000 saw the the free gate attraction.

Mansfield defeated Smitty's of Marion to gain the finals.

Lima, Richmond, Dayton Win in OSL Games

By The Associated Press

Richmond powered a four-run drive on three hits and an error to take an 11 inning nightcap, 8-4, from Dayton after the Indians had won the early game from Richmond, 3-2.

A 10-hit spree in two innings was the basis for a 14-7 shellacking Lima handed Newark. The Terriers used six hits and two walks to score the eight runs in the sixth and continued the rally through the seventh with four more hits which, added to an error and two walks, brought five more men home.

The Cincinnati Reds demonstrated the power of the National league as they opened with a six-run inning and then coasted to a 10 to 2 victory over Muncie's Ohio State league entry in an exhibition game at Muncie.

Springfield was idle.

Victory Song, Palin Up, Sets Trotting Record

By The Associated Press

SPRINGFIELD, Ill., Aug. 14—Grand circuit horsemen had a new world's record to shoot at today as a result of a 1.57 3-5 mile unreeled yesterday by Victory Song from Castleton Farms, Lexington, Ky.

In setting a new world's race mark for a trotting stallion, the four-year-old beat the record of 1.57 3-4, made by Volo Song in 1944.

Victory Song was driven by Sep Palin who also turned another heat under the charmed 2 minutes when he drove Ensign Hanover a 1.59 4-5 mile in the Directum I pacing stake. Victory Song was competing in the Nancy Hanks trotting stake.

By The Associated Press

QUINCY, Ill., Aug. 14 — The Belleville, Ill., American Legion junior baseball team and the Cincinnati Bentley Post team won their opening games in the four team round-robin seventh regional American Legion junior tournament last night.

The Illinois state champions defeated the Indiana titlists, Richmond, 17-6 in the first game.

Bob Andres fanned 16 batters in the second game as the Ohio champions nosed out Detroit, representing Michigan, 7-6. Henry Johnson struck out 12 batters for Detroit.

Tonight Richmond and Detroit meet in the first game, the loser being eliminated and Cincinnati and Belleville will play in the second contest.

Marion Semi-Pro Gridders Work Out

Practice is being held nightly by the Marion Angels at Crystal Lake park, with the team concentrating on the T formation.

Drills started a week ago ago Monday and about 25 candidates have been showing up regularly. A number of other gridders are expected to go out when summer sport activities are over.

So far practices have consisted of dummy scrimmage. Coach Gene Fetter planning the first body contact scrimmage next week.

Besides working on the T offensively, a special defense against the formation, especially strong down the middle that requires rugged linebackers to protect the ends, is being worked on.

The backfield combination, which Fetter has been using in practice, is slightly different from last year's. Bob Ivey, speed merchant who joined the town late last season, is again working at one of the halfback spots and Bud Reams, Kenton star of several years ago, who can match Ivey's speed, is running at the other half. Ed Simmons is again playing under center and Bob Dull, tackle last season, and Bill Scott are trading at fullback. Dull weighs in at over 230 pounds.

The Angels will open their season at Mt. Gilead Sunday Sept. 7 against the Columbus Hill Top A. C.'s at 2 p. m. Their first game in Marion will be at Harding stadium Saturday, Sept. 13 at 8:15 p. m. against Worthington.

Fast Track To Favor Fair Racing Program

With the fairgrounds racing oval in top condition the speed program of the Marion county fair is expected to furnish harness racing fans with one of the best four-day shows in the state this year.

Approximately 125 horses are to be stabled here Friday for the big events next week.

Tuesday night's opening session alone will present three closed stake events with 48 colt burners now eligible for the purses of $1,000 each.

Feature race of the Tuesday night program, the 19 trot, with several of the best in local talent entered should furnish excellent races with added interest.

Local Horses Entered

Among the 14 entries for this feature are Dr. J. G. McNamara's Cleverness, Leny Law belonging to Charles England of Marion, Flash, property of Charles Sims of Waldo, Allie Lorn owned by Foster and Alber of Marion.

Another local entry to furnish top competition is Proto owned by Dr. J. F. Smyth of Marion. George Battles of Richwood is also a top contender for the purse with Rita Castle.

The only out of state entry comes from Selma, Ala., with H. H. Bedgood making the trek with The Asp.

Two other stake events on the two-hitter card are the 22 pace with 18 horses now eligible and the 28 trot with 15.

Wednesday Program Is Fast

The 12 pace on Wednesday night will also present a fast group of local and out of town entries. Probably the best harness horse in Marion, Dr. McNamara's Buddy Patchen, is expected to be the favorite, but among the large group ready to capture Buddy's claim are Carolyn Abbe owned by C. B. Lovett of Fairfield, G Direct, owned by Don Cahill of Ottawa, Leona B owned by colorful Chuck Bewley, the story teller of Bellefontaine and Abbe's Abbe property of Ed McQuown of Kenton.

Since winning a race and being disqualified in another in the Little Grand Circuit here in July, Buddy Patchen had been racing regularly. He captured several large purses at Northville, Mich., and should be in fine condition. The fast pacer with a real competitive heart has always been a favorite of horse lovers as well as top favorites of those who buy the pari-mutuel tickets.

Two other events on the Wednesday program are a closed stake race for 15 trotters and an overnight event for 15 pacers. Two sessions on Thursday should give the race enthusiasts plenty of chances to pick winners as well as losers.

The afternoon card is made up of two overnight events, a three year old pace 24 pace and a 20 trot. Three overnight class events are also billed for Thursday night session. A three year old trot, a 24 trot and 17 pace make up the program. All six of the day's events carry a purse of $500 each.

The closing session Friday afternoon is a double feature program with a 2 year old trot and a 2 year old pace with purses of $1,200 each. The other is an overnight affair for 12 pacers, also expected to be one of the events to draw a fine entry list. The purse is $500.

Former Resident Of Sycamore Dies

Special to The Star

SYCAMORE, Aug. 14 — Miss Cecelia Minnette Fagan, 75, a former resident of Sycamore and Lima, died at 4 a. m. today in the Legg Rest Home in Upper Sandusky, where she had been for two years. She had been ill six years.

Born Oct. 25, 1871 in Nevada, she was a member of the First Presbyterian church in Lima, and was a voice teacher in Lima for 25 years. Surviving is a sister, Mrs. James A. Van Gundia of Sycamore, with whom she formerly made her home.

Funeral services will be conducted at 3 p. m. Saturday in Moore's funeral home in Sycamore by Rev. W. H. Hewitt, pastor of the Methodist church. Burial will be in Nevada cemetery. Friends may call at the funeral home after noon Friday.

MILLION DOLLAR EYES, Janice Carter, young film actress whose eyes, her studio says, are "the sexiest in the world," signs an application to insure them for $1,000,000. She may or may not be granted the policy, but her press agent figures the idea will be worth plenty of publicity.

YOUR HEALTH

Eye Ills from Sinuses

Infected sinuses are not only responsible for a great deal of discomfort and disability, but they may cause even more serious trouble by spreading their infection to other parts.

When you consider that the wall between these air chambers in the nose and passageway through which runs the optic nerve, is tissue-paper thin, it is not surprising that infected sinuses may lead to various eye disorders. If the germs break through this wall — which can happen very easily — they are likely to set up abscesses at the back of the eyeball.

Dr. Albert L. Brown of Cincinnati, Ohio, describes the symptoms of this condition. There is rapid swelling of the lining membrane of the eye, and the eyeball becomes fixed and rigid. Any pressure over the eye causes pain.

Another disorder known as retrobulbar neuritis also may occur as a result of infection in the nose. In this disorder, there are loss of eyesight and, often, spots before the eyes. The loss of eyesight may come on suddenly or gradually. It is rare for the condition to occur at the same time in both eyes.

In acute cases, recovery from the condition is usually rapid. This improvement may continue for from four to eight days and then stop. In other instances, the loss of vision may come on so gradually that when it is first noticed, a great deal of damage has already occurred.

In determining the treatment which should be employed, the extent of the condition must be considered.

According to Dr. Brown, the first step in the treatment of retorbulbar neuritis, after a careful physical examination is found to be negative, should be shrinking of the lining membrane of the nose in order to speed up drainage of the nasal secretions. This can be done with various substances applied to the lining membrane by the physician.

The second step in the treatment is the injection of certain protein substances such as boiled milk into the muscle. This causes a reaction which sometimes aids in getting rid of the eye condition.

If, after this, the eye disorder still continues, a nasal operation may be required to get rid of the infection present in the sinuses, or at least to increase the drainage.

It is believed that the neuritis of the eye nerve develops because of pressure on the nerve. Shrinking of the lining membrane of the nose tends to relieve this pressure.

One of the substances used in the shrinking process is adrenalin, which has the effect of causing the blood vessels to contract. It is possible that the effect of the adrenalin is carried to the lining membrane around the optic nerve which would tend to relieve the direct pressure on the nerves by contraction of the blood vessels in these membranes.

Should eye troubles of this type develop, careful study of the nose by a specialist is advisable, including X-ray examination, so if infection is present it may be discovered and promptly relieved.

QUESTIONS AND ANSWERS

A. R. N. J. My eyeballs have bright-red streaks across them. Do you think this will clear up? I do not wear glasses.

Answer: The redness of the eyes may be due to infection. It might come from a condition known as glaucoma.

It is important that you have an examination of the eyes by an eye specialist as soon as possible.

Physician and Girl, 15, Killed in Plane Crash

By The Associated Press

SCRANTON, Pa., Aug. 14—The bodies of a prominent Philadelphia obstetrician and a 15-year-old girl were found in the flame-seared wreckage of their small plane near the Pocono mountain community of Thornhurst.

Pennsylvania state policeman William Wendland identified the bodies as those of Dr. Irving Uram, 30, member of the staff of Jefferson hospital in Philadelphia, and Lorraine Shock, a friend of the Uram family.

GOODRICH, EMPLOYES TO TALK CONTRACT

By The Associated Press

AKRON, O., Aug. 14—Contract talks between the B. F. Goodrich Co. and the CIO-United Rubber Workers of America will begin Monday in Cleveland, L. S. Buckmaster, international union president, announced today.

The company suddenly capitulated yesterday to demands of the union that seven plants in which the URWA is bargaining agent be considered for a single master contract. Bargaining previously had been conducted on a plant-by-plant basis.

The agreement to bargain on a companywide basis ended the threat of a strike that would have involved some 30,000 workers in Goodrich plants across the nation.

Strikers already out in Goodrich's Tuscaloosa, Ala., plant probably would return to work, union headquarters said.

The unions wage talks with the Goodyear Tire and Rubber Co. on a corporation-wide basis open today in Cleveland.

McConnelsville Ordered To Inoculate Population

By The Associated Press

MCCONNELSVILLE, O., Aug. 14—Inoculation of this entire community of 2,800 residents was ordered today after a case of typhoid fever was discovered.

In response to the order of Dr. C. E. Northrup, Morgan county health commissioner, local physicians arranged to begin administering anti-typhoid serum tomorrow afternoon.

The physicians will donate their services, and the serum will be provided by the state department of health.

The typhoid case is four-year-old Bruce Butterfield, who has been ill a week. He is in Memorial hospital, Marietta.

The city's water supply, drawn from wells on the bank of the Muskingum river, has been low since a dam in the river broke last week. The water table dropped five feet when the dam broke.

Army engineers brought in a purification unit Sunday and it has been in operation since then.

VICTIM OF DRY SCALP?

Dr. C. E. Shiffer, Licensed by Ohio State Medical Board, (Cosmetic Therapy)

Dry scalp is often the direct result of improper cleansing. Bar soap and harsh shampoos having injurious alcohol, acids or free alkali irritate the scalp and disturb its natural functioning.

Dr. Shiffer's Special 101 Formula Shampoo provides the gentle but thorough cleansing which hair and scalp health demand. It is free of any harsh ingredients . . . safe for the most delicate scalp. A few drops work up into a rich, cleansing lather in *hard or soft water.* Rinses easily, removing accumulated dandruff and leaving the hair and scalp perfectly clean and comfortable.

A professional product, Dr. Shiffer's Special 101 Formula Shampoo is today being used by thousands of men and women as a vital aid to hair and scalp health. For additional protection Dr. Shiffer's Hair and Scalp Conditioner is recommended.

At all drug and department stores. If you are not completely satisfied, return the unused portion direct to Dr. Shiffer and he will refund your money immediately.

PICKET LINES SURGE AT MICHIGAN FIRM

By The Associated Press

CLINTON, Mich., Aug 14—Picket lines reinforced by CIO recruits from Detroit and Toledo marched today before the gates of the strikebound Clinton Machine Co in a tense atmosphere as a continued back-to-work movement led to a number of incidents around the plant.

A hair-pulling scuffle ensued after 19 women employes had joined an estimated 125 workers who had slept in the plant. Jostling at the picket lines occurred frequently as others attempted to cross.

Cries of "scabs" were hurled from a union truck at those who had remained in the plant. State police estimated the picket line, which had fallen off to a token number after a clash with nonstrikers Monday, jumped to close to 400 this morning.

Shortly after the plant resumed limited operations, a voice from the sound truck said.

"We're going to demonstrate to employers in small towns that they are not going to push our workers around.

"This demonstration by Detroit and Toledo locals is just a sample of what's going to happen if this strike continues."

Meanwhile, state labor mediators sought to narrow the differences in the wage dispute calling another company-union meeting for 1 30 p m The CIO United Auto Workers have demanded a 15-cent hourly wage boost for the 900 employes and Company President Donald Thomas has countered with an eight-cent offer plus a bonus plan

CINCINNATI WORKERS IN CAFES GET RAISE

By The Associated Press

CINCINNATI, Aug 14—Cincinnati restaurant workers are due for a wage increase and operators say it will necessitate a boost in food and drink prices.

The joint council of AFL Hotel and Restaurant Employes and Bartenders International union announced yesterday that oral agreements had been reached with 24 downtown restaurants, providing wage increases averaging 30 per cent

A new contract now being signed by various esstablishments reduces the unionists' work week from 48 to 40 hours and at the same time calls for wage boosts said Peter McGovern, union spokesman

He said that considering the 40-hour week the increase would amount to 30 per cent for more than 1 000 workers

From at least two restaurant operators came word that the new wage scale would necessitate a 25 per cent increase in prices

The revised wage scale probably will become effective Aug 18, union officials said

Under the new contract, meat carvers would get a $5 increase from their present $40 a week dishwashers a $3 boost from $23 and steamtable men $2 45 more than the present $36, the union said

A chef who made $12 50 a day or $75 a week under the old contract, would receive a weekly wage of $86 60

fighting, or to expect the dominions to work in harmony at the outset The very nature of the territorial division is an invitation to trouble, because Pakistan (the smaller dominion) is mainly agricultural while India contains not only agricultural resources but virtually all the manufacturing which has made India the eighth industrial nation of the world

To this must be added the fact that Pakistan is divided into two widely separated parts so that the dominions straggle about and cut into each other like a jigsaw puzzle This means that the long railways are constantly crossing frontiers, where presumably there will be passport and customs inspections, consuming endless hours and roughing tempers of travelers

However, while the advent of Purna Swaraj is marked with these and other complications, there is sound reason to be optimistic regarding ultimate solution of the problems. The very economic difficulties, which at the outset will cause friction and perhaps even serious trouble, must in the end force the dominions to cooperate

The day will come when the factions of the sub-continent will march in step.

CIVIL WAR OLD SOLDIERS TO BREAK CAMP TODAY

Election of Commander To Conclude 81st Encampment.

By The Associated Press

CLEVELAND, O., Aug. 14—Old soldiers of the Grand Army of the Republic break camp today with the election of a commander-in-chief in what will probably be one of the last meetings the organization will hold.

Tired but still game, the five old gentlemen who were the Union army blue entered their fifth vigorous day of the 81st encampment after a round of campfire stories last night that brought flashbacks of the nation's only civil war.

After Commander - in - Chief John H. Grate contented himself with a dignified salute to the audience, the other four marched to the microphone to recall the past.

From President Truman came this message:

"The passing of the years will never dim the glory of those who fought to preserve the union. I hope the encampment will be a success, and I deeply regret that I am unable to be with you."

The other three veterans at last night's campfire were Robert M Rownd, 102, Ripley, N Y, John R Bennett 102, of Waynesfield, O, and William H Osborn, 101, of Joplin, Mo

Pepper Says Truman Will Be Elected in '48

By The Associated Press

WASHINGTON, Aug 14—From the White House steps Senator Pepper (D-Fla) voiced his support today of President Truman for reelection

"I don't think there is any question but that the President should be and will be nominated, and should be and will be elected," Pepper declared to reporters after a call on the President

Adding political significance to the Florida senator's remarks are the particular position he occupies in the Democratic party.

Pepper is close to the CIO and other labor groups He also is a warm friend of Henry A Wallace, former vice president who was ousted by President Truman as commerce secretary after they clashed over foreign policy.

LOVE'S PERILOUS PATH

By ADELE GARRISON

I DID not know where I was going to hide my almost irrepressible amused smile at Philip Veritzen, but I managed it. He had seized the opportunity to salve his wounded ego with a lofty reproach to me, and he was reveling in it.

"I'm sorry, Phil," I said humbly, but secretly exultant for I had accomplished what I had set out to do. "I should have known I had no need even to ask you that question. But I am awfully glad of your assurance nevertheless."

"Thank you," he replied a bit stiffly. "Now, I'm going to put a question to you. What about those barred windows? When can the bars come off, and—though Noel will learn about her fear, does he ever need to know why we put up those bars?"

"Not unless Mary gets what Dicky calls a yen for confession," I returned, smiling. "But I think I can manage that. You see, I never have departed from the story that my father wanted those bars put on because he thought we all were in peril.

"Mary does not believe that story," I went on, "but I am sticking to it. And I do not think she will go that far out of her way to tell Noel something that would shock him beyond endurance."

"When do you think the bars can come off?" he asked again.

"Not for several days," I answered. "Mary knows that my father does not cry 'Wolf!' without reason, and if he really were behind the order, it would not be rescinded quickly."

That Is That

"That is that, then," he said. "Now, have you anything further you wish to ask or tell me?"

"Not a thing," I told him, smiling a bit mischievously, "except to ask you if you are ready to hold out the sceptre to Mary. She is very anxious to see you, but she is deeply ashamed of the way she requited your kindness in coming home without your permission, and I think she dreads the interview a bit."

"What nonsense!" he orated pontifically. "Tell the dear child I am not going to utter one word of reproach. I am simply going to give her a loving father's welcome home."

When he wishes, Philip Veritzen can be truly magnificent, and I made a mental salaam as he rolled out his ponderous periods.

"She will be so glad to hear that," I assured him. "I will fetch her directly."

But once inside the bedroom with the sitting room door closed my own relief found vent in catching Mary around the waist and hugging her tightly.

Had Heard the Story

"We have met the enemy and he is ours," I chanted in muted tones. "He has heard the story of your release from fear, and is properly thrilled, and repentant at having censured you even in his thoughts. And he was very much high hat at the idea of anyone thinking that he ever would tell Noel that he had the knowledge first. He says all he wants to do is to give you a father's welcome home."

"Then," Katharine interrupted practically, "you had better stop hugging her and let me play lady's maid for a minute or two. You want to look your best, you know, when you're meeting royalty."

"D'ye think I'd better curtsy?" Mary asked with a giggle.

"I don't think you'll have the chance," I told her, and proved a true prophet, for when I led Mary, all primped and spruced and looklink like a particularly delectable angel, into the sitting room, Philip Veritzen came rapidly up to her and swept her into his arms.

"My darling daughter!" he said tenderly. "Welcome home!"

BEEKEEPERS PICNIC

The Richland County Beekeepers association will hold a picnic Sunday, Aug. 17, at the Middle park pavilion located between Routes 30N and 30S on the west side of Mansfield. All members of the Marion County association, their families and other interested persons are invited to attend. Dinner will be served at 1:30 and coffee will be furnished. M. J. Deyell and William Thomas of the A. I. Root Co. at Medina will be special guests.

Sycamore Boy Scouts Hold Full Programs

Special to The Star

SYCAMORE, Aug. 14—A treasure hunt was the feature at the scout meeting Thursday night. A five mile trail was marked out by scoutmaster William Breyley and two teams competed. Jack Anderson and Robert Bell were leaders with Bell's team making the trail in the shortest time. The losers cooked hamburgers for the winners at the scout room later in the evening.

Troop No. 38 had a weekend trip at Hossler's woods northwest of town. Jack Anderson, a junior assistant scoutmaster, led one patrol and Junior Riedel was the other leader. Three meals were cooked and games and other features of entertainment were enjoyed. A slight accident somewhat upset the routine Sunday morning when James Biller cut his foot with an axe while chopping wood. First aid was very ably administered by Jack Anderson and he was then brought to the office of a local physician where the wound was sewed and James was able to return to camp.
